NOTIFICATION.

ECCLESIASTICAL.

Delhi, the 17th December 1917.

No. C-C.—The following message issued by His Majesty the KING EMPEROR is published for general information:—

TO MY PEOPLE,

The world-wide struggle for the triumph of liberty is entering upon its last and most difficult phase. The enemy is striving by desperate assault and subtle intrigue to perpetuate the wrongs already committed and to stem the tide of free civilisation. We have yet to complete the great task to which we have dedicated ourselves, and I would call upon you to devote a special day to prayer that we may have the clear-sightedness and strength necessary to the victory of our cause. This victory will be gained only if we steadfastly remember the responsibility resting upon us and in a spirit of reverent obedience ask the blessing of Almighty God upon our endeavours. Let us seek to be enlightened in our understanding and fortified in courage in facing the sacrifices we may yet have to make. I therefore appoint January 6th, the first Sunday in the New Year, to be set aside as a special day of prayer and thanks giving in all the churches throughout my Dominions."

E. D. MACLAGAN,

Secretary to the Govt. of India.

No. 910-C.—The following Royal Warrant is published for general information:—

GEORGE R. I.

GEORGE THE FIFTH, by the Grace of God, of the United Kingdom of Great Britain and Ireland and of the British Dominions beyond the Seas, King, Defender of the Faith, Emperor of India, to all to whom these Presents shall come, Greeting!

WHEREAS Her late Majesty Queen Victoria, being desirous of distinguishing by some mark of Her Royal Favour the many heroic acts performed by Mariners and others who endanger their own lives in saving or endeavouring to save the lives of others from shipwrecks and other peril of the sea; and the many heroic acts performed on land by those who endanger their own lives in saving or endeavouring to save the lives of others from accidents in mines, on railways and at fires, or other perils within Her Dominions, other than perils of the sea, did, by Warrants under the Royal Sign Manual bearing date respectively the 7th March, 1866, the 12th April, 1867, and the 30th April, 1877, for Herself, Her Heirs and Successors, institute and create as a mark of Royal Approbation of such heroic acts, new Decorations styled respectively "The Albert Medal of the First Class" and "The Albert Medal of the Second Class," which Decorations Her Majesty was desirous should be highly prized and eagerly sought after:

And whereas the said Warrants were subsequently amended and all the Warrants relating to these Decorations were consolidated by a Warrant under the Sign Manual bearing date the 5th June 1905:

And whereas it is Our Pleasure to amend the style of the said Decorations:

We are graciously pleased to make, ordain and establish the following Rules and Ordinances for the government of the Decorations:—

I. It is ordained that the Decoration in each case shall be styled "The Albert Medal"; but when it is awarded for acts of such extreme and heroic daring as to merit a special degree of recognition, it shall be styled "The Albert Medal in Gold."

II. It is ordained that the Albert Medal shall consist of a bronze oval-shaped Badge or Decoration, having in the centre a Monogram composed of the letters V. and A. erect upon an enamelled background, surrounded by a Garter inscribed in raised letters "For Gallantry in Saving Life at Sea," or "For Gallantry in Saving Life on Land," as the case may be, and surmounted by a representation of the Crown of His Royal Highness the lamented Prince Consort; but where the Medal conferred is "The Albert Medal in Gold," it shall consist of a gold oval-shaped Badge or Decoration having in the centre a Monogram composed of the letters V. and A. erect in gold upon an enamelled background, surrounded by a Garter in bronze inscribed in raised letters of gold "For Gallantry in Saving Life at Sea," or "For Gallantry in Saving Life on Land," as the case may be, and surmounted by a representation in gold of the Crown of His Royal Highness the lamented Prince Consort. When the Medal is given for gallantry in saving life at sea, the letters V. and A. shall be interlaced with an anchor erect in bronze or gold, as the case may be.

The Medal shall be suspended from a riband of an inch and three-eighths in width, having two white longitudinal stripes; in the case of the "Albert Medal in Gold" the riband shall have four white longitudinal stripes.

The colour of the enamel and riband shall be dark blue when the Medal is conferred for gallantry in saving life at sea, and crimson when it is conferred for gallantry in saving life on land.

III. It is ordained that the Medal shall only be awarded to those of Our faithful subjects who, in saving or endeavouring to save the lives of others from perils of the sea, or from perils on land, have endangered their own lives, and that such award shall be made only on a recommendation to Us by Our Principal Secretary of State for the Home Department.

Provided always that where the Medal is conferred for gallantry in saving life at sea, the preliminary steps and enquiry shall, if the award be to anyone belonging to the Royal Navy or the Royal Marines, be with the Lords Commissioners of the Admiralty, and in other cases with the President of the Board of Trade.

IV. It is ordained that the names of those persons upon whom We may be pleased to confer the Medal shall be published in the *London Gazette*. Where the Medal is conferred for gallantry in saving life on land a Register of such names shall be kept in the Office of Our Principal Secretary of State for the Home Department. Where the Medal is conferred for gallantry in saving life at sea, a Register of the names of such of these persons as belong to the Royal Navy or the Royal Marines shall be kept in the Office of the Lords Commissioners of the Admiralty, and a Register of the names of such of these persons as do not belong to the Royal Navy or the Royal Marines shall be kept in the Office of the Board of Trade.

V. It is ordained that the Medal shall be worn suspended from the left breast.

VI. It is ordained that any act of gallantry which is worthy of recognition by the award of the Albert Medal, but is performed by one upon whom the Decoration has already been conferred, may, on a recommendation to Us by Our Principal Secretary of State for the Home Department, be recorded by a bar attached to the riband by which the Medal is suspended; and for every such additional act an additional bar may be added.

VII. In order to make such additional provision as shall effectually preserve pure these most honourable Decorations, it is ordained that if any person on whom any of such Decorations is conferred be guilty of any crime or disgraceful conduct which in Our judgment disqualifies him for the same, his name shall, by an especial Warrant under Our Royal Sign Manual, be forthwith erased from the Register of those upon whom the said Decoration shall have been conferred, and his Medal shall be forfeited. And every person to whom the said Medal is given shall before receiving the same enter into an engagement to return the same if his name shall be so erased as aforesaid under this Regulation. It is hereby further declared that We, Our Heirs and Successors, shall be the sole judges of the circumstances demanding such expulsion. Moreover, We shall at all times have power to order

that any person who may at any time have been expelled shall be restored to the enjoyment of the Decoration.

VIII. The Warrant of the 5th June, 1905, is hereby revoked.

Given at Our Court at *Saint James's*,
this twenty-eighth day of *August*,
One thousand nine hundred and
seventeen, in the Eighth year of
Our Reign.

By His Majesty's Command,

GEO. CAVE.

Delhi, the 21st December 1917.

CANTONMENTS—REGULATIONS.

No. 2227.—In Army Department Notification No. 2054, dated the 30th November 1917, the following amendments should be made to the new section 171-C of the Cantonment Code, 1912:—

For "Sections 158-K and 158-L" substitute "Sections 238-A and 238-B."

For "Section 158-B" substitute "Section 171-A".

RESOLUTION.

No. 2228.—In Military Department Notification No. 718, dated the 17th July 1903, the approval of the Government of India was accorded to the adoption of the system detailed below for the promulgation of Government and other orders to the Army in India:—

- (1) The system of publishing orders to the Army in G. G. Os., G. Os. C. C., or India Army Circulars to be discontinued.
- (2) All orders or notifications to the Army to appear either in the *Gazette of India*, or in orders published by the Adjutant-General's Department styled "India Army Orders."
- (3) All such commissions, appointments, promotions, retirements, rewards, legal notifications, despatches connected with field operations, or other notifications to be published in the *Gazette of India* which it is usual or expedient to publish therein.
- (4) Changes in organisation, etc., and rewards of a minor description, such as the grant of meritorious service medals, to be notified only in India Army Orders, as a rule.
- (5) India Army Orders to commence with the notification of all Royal Warrants and Regulations or orders promulgated under the authority of the Secretary of State for India, or the Governor General in Council, and to be prefaced accordingly. Such notifications to be followed by orders which had hitherto appeared only in G. O. C. C.
- (6) A quarterly appendix to the India Army Orders to be published in the place of India Army Circulars, to contain only corrections to the India Army Regulations, and to be printed separately so as to facilitate the correction of books of regulations.

2. The Government of India have had under consideration a proposal to modify the system under which the decisions of Government and the orders of His Excellency the Commander-in-Chief are communicated through the medium of Army Department letters and India Army Orders, respectively. Under the existing system, Army Department letters are generally addressed to the administrative Branch of Army Headquarters to which the subject-matter pertains, or to the General Officer Commanding Division or Independent Brigade, or Controller of Military Accounts concerned. They seldom reach the smaller formations and staffs without great delay and duplication of work and many never reach units at all. India Army Orders frequently contain much matter which is not proper to them.

3. In modification of the orders contained in the notification quoted in paragraph 1 above, the Government of India have decided that the procedure detailed below shall be adopted, with effect from the 1st January 1918, for

the promulgation of decisions of Government and orders of His Excellency the Commander-in-Chief to the Army in India:—

- (a) *Army Department letters* conveying the sanction of the Government of India to proposals emanating from Army Headquarters or elsewhere will in future be restricted to cases of individual or of special application, and will not convey decisions which will form precedents for the Army as a whole. They will also deal with confidential matters, even of general importance, which cannot properly be published in India Army Orders.
- (b) Decisions not within the powers of His Excellency the Commander-in-Chief in India and which convey the orders of the Right Hon'ble the Secretary of State for India or the Governor General in Council on matters affecting the Army as a whole will in future be issued simultaneously to all authorities in a form analogous to the British Army Council Instructions. The form of communication will be designated "Army Instructions (India)."
- (c) The Army Instructions (India) will be printed over the signature of the Secretary to the Government of India, Army Department, and will appear on separate sheets numbered consecutively. They will be issued regularly once a week to all authorities, civil and military, from the Government Press: the distribution list corresponding approximately to that of India Army Orders.

A bound copy of these instructions will be issued monthly with an index.

- (d) India Army Orders will in future be restricted to the promulgation of orders in which His Excellency the Commander-in-Chief in India is the deciding authority and to the republication of such War Office Army Orders as are deemed applicable to the Army in India.

ORDER.—Ordered that a copy of this Resolution be published under a notification in Part I of the *Gazette of India*, ordered also that it should be communicated to the several Departments of the Government of India; the Financial Adviser, Military Finance; all local Governments and Administrations; Heads of Branches of Army Headquarters; the Director, Royal Indian Marine, and all Controllers of Military Accounts.

NOTE 1.—Where a person or firm mentioned in the List has more than one address in the country or group of countries under which the name of the person or firm appears all dealings in that country, or in any country in the group with such person or firm are prohibited, even in cases where one only of the addresses, or one only of the countries, is specifically mentioned.

NOTE 2.—Trading is prohibited under the Trading with the Enemy Proclamations of 25-June, and 10 November, 1915 (which were republished by the Government of India as notifications in the Commerce and Industry Department, Nos. 12221-W. and 861-W., dated respectively the 24th July and 11th December, 1915), with any person or firm of enemy nationality resident or carrying on business in China, Siam, Persia, Morocco, Liberia or Portuguese East Africa. Persons or firms are therefore prohibited from trading with any person or firm of enemy nationality in any of those countries even though such person or firm is not mentioned by name in the above Schedule.

NOTE 3.—It is not unusual for firms in Holland and the Netherland East Indies to be registered under names commencing with descriptive terms such as "Handel Maatschappij" (Trading Company) or "Naamloze Venootschap" (Limited Liability Company). In such cases it has been found more convenient to publish the firm under its proper name followed by the general descriptive term "Handel Maatschappij" or "Naamloze Venootschap" (N.V.) as in the case of an English company. For instance Handel Maatschappij van den Berg & Company, and Naamloze Venootschap de Komeet v-h Damesseau Frères will be found under "Berg" and "Komeet" respectively, and not under "Handel" or "Naamloze."

PRESENT:

THE KING'S MOST EXCELLENT MAJESTY.

And whereas by a further Order of Her said late Majesty Queen Victoria in Council, also bearing date the 12th day of December, 1885, it was ordered that Part II of the Fugitive Offenders Act, 1881, should apply to the group of British Possessions therein mentioned, that is to say, the Straits Settlements, Hong Kong, and Labuan:

And whereas by reason of their contiguity, or the frequent inter-communication between them, it seems expedient to His Majesty, and conducive to the better administration of justice therein, to apply Part II of the Fugitive Offenders Act, 1881, to the above mentioned British Possessions and Protected States, and such application has been requested by the Rulers of the said States:

Now, therefore, His Majesty, by virtue of the Powers in this behalf by the Fugitive Offenders Acts, 1881 and 1915, and otherwise, in His Majesty vended, is pleased by and with the advice of His Privy Council, to order, and it is hereby ordered, as follows:—

(1) On and after the 1st day of February, 1918, the hereinbefore recited Orders in Council of the 12th day of December, 1885, shall be revoked, without prejudice to anything lawfully done thereunder, or to any proceedings commenced before the said date, and Part II of the Fugitive Offenders Act, 1881, shall apply to the group of British Possessions and Protected States hereunder mentioned, that is to say—

British India;
Ceylon;
Hong Kong;
The Straits Settlements;
The Federated Malay States;

(2) The Governor-General of India, and the Governors of Ceylon, Hong Kong and the Straits Settlements shall cause this Order to be proclaimed in the Territories and Colonies under their respective Governments.

(3) The Governor, as defined in the Straits Settlements and Protected States Fugitive Offenders Orders in Council, 1916 and 1917, shall cause this Order to be proclaimed in the Protected State in which he exercises the functions of Governor for the purposes of the Fugitive Offenders Acts, 1881 and 1915.

And the Right Honourable Edwin Samuel Montagu and the Right Honourable Walter Hume Long, two of His Majesty's Principal Secretaries of State, are to give the necessary directions herein accordingly.

LONDON GAZETTE.

No. 665.—The following is published for general information :—

Fourth Supplement, dated the 10th January 1918, to the London Gazette of the 3th January 1918.

War Office,

10th January 1918.

The Secretary of State for War has received the following Despatch addressed to the Chief of the General Staff, India, by Lieutenant-General Sir Stanley Mande, K.C.B., late Commanding-in-Chief, Mesopotamian Expeditionary Force :—

*General Headquarters,
 Mesopotamian Expeditionary Force,*

October 16th, 1917.

SIR,

I have the honour to submit herewith a report on the operations carried out by the Mesopotamian Expeditionary Force during the period extending from April 1st to September 30th.

2. My previous despatch included a narrative of the operations subsequent to the fall of Baghdad up to March 31st, by which date our Columns had driven the enemy north-east, north and west in divergent directions along the Dialah, Tigris and Euphrates, respectively, and our advanced troops had established a screen covering Baghdad, being disposed approximately on the line Shahraban-Dogameh-Mushaidie-Feluja. In order, however, to provide for the security of Baghdad, which is an open city devoid of means of defence, it seemed desirable to prosecute our operations against the shattered but reinforced Columns of the 18th Turkish Corps, with which we had been so recently engaged, whilst keeping careful watch on the movements of the 13th Turkish Corps, which was falling back before our Russian Allies, lest the enemy should detach troops from his direction against the right flank and rear of our movement towards Samarra. The pressure applied by the Russian Column, which had already reached Karind with advanced troops at Khanikin, assisted by our troops operating in the Jebel Hamrin, as described in my last despatch, now forced the enemy to cross the Dialah and continue his retreat on Kifri.

3. On April 2nd we effected a junction with General Barotoff's troops, about Kizil Robat, and as soon as these were well established on the line of the Dialah our Column in this vicinity—having served the double purpose of harassing the retreat of the Turks and joining hands with the Russians—was withdrawn. This enabled us to resume our operations along both banks of the Tigris, which had been temporarily suspended.

4. On the 6th our Cavalry moved forward to the vicinity of Deli Abbas with instructions to cover our right flank, and by delaying action to draw on gradually any movement initiated by the 13th Turkish Corps towards the Tigris. On the left bank of the Tigris it seemed wiser not to commit our troops to definite action until such time as the intentions of this Turkish Corps became clearer. On the right bank of the Tigris the enemy's force was estimated at 4,000 rifles with 200 sabres and 16 guns, and these were holding Harbe with advanced troops about Beled Station. On the 8th our troops moved forward to attack the enemy's position covering Beled Station, and good progress was made until they came under close machine gun and rifle fire from some rising ground in that vicinity. The 51st Sikhs were ordered to secure this point, and making good use of the broken ground and well supported by artillery, they established themselves there without difficulty and pressed forward beyond. The enemy holding the station now found his position untenable, and soon his whole line was in retreat. Our losses were slight, but the enemy, in addition to his battle casualties, lost 200 prisoners, including nine officers as well as three machine guns and some rolling stock. On the 9th Harbe was occupied, and here a pause was ordered in order to allow for further operations on the left bank of the Tigris.

5. Our troops on the left bank had driven several parties of the enemy across the Shatt El Adhaim on the 7th, and on the following day a close reconnaissance of this river was carried out with a view to bridging it. It now became evident, however, that the 13th Turkish Corps from Jebel Hamrin and the 52nd Division of the 18th Turkish Corps on the line of the Shatt El Adhaim were contemplating a converging movement against our troops on the left bank of the Tigris. The 2nd and 14th Turkish Divisions, some 6,000 rifles strong, with 250 sabres and 33 guns, moving down the right bank of the Nahr Khalis Canal towards Deltawa, had by the evening of the 9th reached a point some seven miles south-west of Deli Abbas. On the following day our Cavalry, falling back under instructions, continued to draw them on whilst our Horse Artillery inflicted substantial casualties on their marching Columns, and by the evening they had reached Arab Bu Abin, but the 52nd Division remained stationary on the line of the Shatt El Adhaim. On the 10th the enemy was reported to be entrenching, but on the 11th he continued his advance, moving in dense columns with his left on the Nahr Khalis. To meet this movement and to support our Cavalry we had detached troops from Deltawa up the right bank of the Nahr Khalis Canal towards Deli Abbas, whilst another Column, leaving sufficient troops to contain the enemy on the Shatt El Adhaim, fell upon his right flank after a night march from Dogameh. This attack, resolutely pressed by two Welsh battalions and the Wiltshires, was a complete surprise, and before the enemy could recover

himself heavy casualties were inflicted on his Columns by our well-handled artillery and by rifle fire. Low visibility owing to mirage, heat and the absence of water hindered our operations, but the enemy was soon in retreat, and by 7 P.M. he had regained Arab Bu Abin.

During the early hours of the 12th the enemy continued his retreat, followed by our infantry patrols, and in the darkness touch with him was lost. At 7 A.M., the Cavalry was ordered in pursuit, and at midday located him 6 miles west-south-west of Deli Abbas, covered by an entrenched rearguard. The Turks were now fighting a stubborn rearguard action, and this continued throughout the 13th and 14th, our progress being continuous but slow. Our Cavalry essayed a wide enveloping movement round the enemy's right flank so as to gain the Kifri Road ahead of him, but his right flank refused to the foot of the Jebel Hamrin, and lack of water prevented them from reaching their objective. During the night of the 14th-15th the enemy continued his retreat on Kifri, and by midday on the 15th our patrols had entered Deli Abbas, where the pursuit was stopped, as it was not intended to follow the enemy into the Jebel Hamrin, since the advantage of position would there have rested entirely with the defence. Over 300 of the enemy's dead were buried, and 1 gun and 80 prisoners were captured by us.

Having disposed of the 13th Turkish Corps temporarily, it was now decided to force the passage of the Shatt El Adhaim and deal with the detachment of the 18th Turkish Corps still holding it. These operations commenced early on the 18th, and by 6-30 A.M. our troops were sufficiently established on the right bank to allow of a bridge being thrown across the river. The channel was narrow, but full of quicksands, and these caused delay, but at 11-40 A.M. the bridge was completed, and by 2 P.M. our infantry had cleared the loop of the river and were moving towards the Barara peninsula. The Turkish opposition had collapsed, prisoners were coming in and a composite Cavalry Brigade moved forward in pursuit. This Brigade skilfully handled, pushed on resolutely and, in spite of heat and want of water, succeeded in turning the enemy's retreat into a rout. His casualties in killed and wounded were heavy, and 1,300 prisoners—of which 26 were officers—and 5 machine guns were captured. Indeed, only a small fraction of the troops opposed to us that day effected their escape. In this action an Indian Cavalry Regiment, the Horse and Field Artillery Batteries, and four Lancashire Battalions specially distinguished themselves.

6. On the 19th the Tigris was bridged at Sinjah and riverhead was moved up to that place. The enemy's opposition on the left bank having been completely destroyed, a further advance was now ordered on the right bank. The Turks were holding a position about Istabulat, facing south-east, with their left resting on the river and extending over a frontage about of 2½ miles across the Dujail Canal to the Baghdad-Samarrah railway. After crossing that railway their line bent back sharply, and continued more or less parallel with the railway track to a point west of Istabulat Ruins, a distance of over 3 miles. The Dujail Canal, diagonally situated to our advance, was a considerable obstacle, with banks 40 feet high in some places, and containing water 6 feet deep and 20 to 25 feet broad, and its banks had been prepared in places so as to bring enfilade fire to bear upon the ground south of it. Two redoubts north of the Canal were prominent features in this section of the defence, and immediately in rear of the Turkish left centre was a group of mounds affording good positions for machine guns. The position was a strong one, and was held by some 6,700 rifles with 200 sabres and 31 guns, whilst in the vicinity of Samarrah were reserves consisting of some 4,000 rifles with 500 sabres and 15 guns. The enemy's left and left centre were selected as the point of attack, and on the 20th his covering troops were driven in and an advanced line established to render it possible for our artillery to be brought forward and for the Canal to be bridged. At 5 A.M. on the 21st his position on the north side of the Canal was resolutely attacked by the Black Watch and 8th Gurkhas, under a creeping barrage, and both battalions made steady progress. In spite of a hot rifle and machine gun fire from the main position the redoubt near the river was captured, and the garrison made prisoners. The other redoubt on this side of the Canal was assaulted, recaptured by the enemy, and finally secured by us, thus giving our troops a good foothold in this part of the enemy's defences. At 6-30 A.M., an attack by the Seaforths and 28th and 92nd

Punjabis was launched south of the Canal. This advance was carried out with fine dash and gallantry across 2,000 yards of ground, devoid of cover, and by 7-25 A.M. the enemy's front line, some 700 yards long, was in our hands. Consolidation proceeded, and in spite of several counter-attacks all gains were held. Reconnaissances were made with a view to a further advance, but they indicated that further progress without reorganisation and careful preparation, which would only be possible under cover of darkness, would be needlessly costly. It was decided therefore to devote the remainder of the day and night to establishing ourselves securely and preparing for a simultaneous attack on both sides of the Canal, to be carried out next morning. A counter-attack by the enemy during the afternoon was dispersed by gun and rifle fire, and his artillery was active through the afternoon.

Early on the 22nd our patrols reported that the enemy opposite our right was beginning to withdraw, and by 4-30 A.M., the whole of the position had been evacuated, and was then occupied by us. The natural and artificial strength of the position now became apparent, and the number of enemy dead testified to the tenacity with which it had been held. Our troops moved forward in pursuit at daybreak and were in contact with the enemy's main body in the vicinity of Istabulat Police Post by noon, where his defensive system consisted of detached groups of trenches partially completed. The heat was great, and the attack was postponed till the evening, when the assault, aided by concentrated artillery fire, was delivered in dashing style by the Leicesters, supported by the 51st Sikhs and 56th Rifles, and the defence was easily penetrated. The attacking troops pressed on relentlessly and rapidly some 1,200 yards further, and the enemy's guns were only withdrawn just in time to avoid capture. The Turks rallied and put in a series of counter-attacks, with which our supporting troops dealt, but the enemy maintained a heavy fire until 8 P.M. when he retreated on Samarrah. This attack had been considerably aided by artillery fire from a Column detached along the left bank of the Tigris to co-operate. During the day a regiment of Indian Lancers made a spirited attempt to break through the line of trenches, and, supported by artillery fire, it captured the front Turkish trench, but its advance was finally checked by fire from other trenches in rear. Our captures on the 21st and 22nd amounted to 20 officers and 667 other ranks taken prisoners, 14 Krupp guns, 1 5·9 in. gun damaged, 2 machine guns, 16 engines and 240 trucks, 2 barges, many rifles and much ammunition and equipment.

At 10 A.M. on the 23rd Samarrah Station was secured, the enemy offering no further resistance and retreating on Takrit, and on the 24th Samarrah Town, on the left bank, was occupied and a post established there.

7 Whilst these operations were in progress on the right bank, it became evident that the 13th Turkish Corps was once more moving forward from the Jebel Hamrin, but this time down the Shatt El Adhaim, against our forces on the left bank of the Tigris, and the latter were accordingly readjusted to deal with the new situation. At 5 P.M. on the 23rd his leading echelon, estimated at 2,000 rifles, with 9 guns, had reached Duhaba, with his second group 17 miles in rear. The chance of defeating him in detail was thus offered, and orders were issued for a night march, culminating in an attack at dawn next day on his advanced troops. The infantry were to attack Duhaba whilst the Cavalry, moving wide to the north, was assigned the mission of intercepting any Turkish forces moving up in support. Our right came in touch with the Turks soon after daybreak, and the action developed rapidly. As the pressure from our left began to be felt the Turks gave way, crossed the river, and retired rapidly up the left bank towards the remainder of their force, and in doing so presented good targets for artillery and machine-gun fire to our Cavalry. This attack had been gallantly delivered by several Lancashire battalions, and as a result about 100 Turks were buried by us and 150 prisoners fell into our hands.

On the morning of the 25th aeroplanes reported the Turks as retiring up both banks of the river, and our troops moved forward in pursuit. By the evening of the 27th they had reached Satha Ruins, being in touch with the Turkish rearguard covering withdrawal to and occupation of a selected position in the foothills of the Jebel Hamrin, and on the morning of the 28th we occupied a line within 2 miles of the enemy's position. Heat, low

visibility and engine trouble had all combined to handicap reconnaissance by land and air, so that the situation still remained somewhat obscure, and during the night of the 28th-29th a violent dust storm arose, which continued intermittently for 48 hours.

Briefly put, the plan adopted was to throw our weight on the 30th up the left bank of the Shatt El Adhaim against the enemy's weaker flank and more shattered division, and then turning north and west to drive him away from water and his line of retreat. From dawn till 7 A.M. the dust storm abated, and our attack on the left bank, developing at 5 A.M., was brilliantly carried out by the Cheshiras and South Wales Borderers over 1,000 yards of level plain, and was immediately successful. By 8 A.M. all objectives had been reached, including the village of Adaim, and the retreating Turks were being engaged at long range, whilst a number of prisoners were already in our hands. Two of our Companies, however, which had lost nearly all their officers, advanced too far in pursuit. For a moment they captured two batteries, a section of machine guns and many prisoners, but whilst still out of touch with the remainder of our force they were counter-attacked and isolated. They maintained a gallant hand-to-hand fight for some time, but few of them survived. This counter-attack, assisted by the configuration of the ground, and the dust storm, which was now raging, enabled the enemy temporarily to regain the village of Adaim, but, checked here by artillery and machine gun fire, he was unable to debouch, and was ultimately driven out again by 11 A.M., and our infantry firmly re-established themselves in the village. The Turks, aided by a continuance of the dust storm, strengthened their left and secured their line of retreat to the north-east, but towards evening the dust storm died down, and the enemy's second line trenches, his transport, his horse lines and his artillery north-east of the village of Adaim were shelled with good effect. Our troops bivouacked on the ground won and pushed forward patrols to maintain touch with the enemy, but during the night he withdrew, and at 6-45 A.M. on May 1st our aeroplanes reported him in retreat 7 miles away. In the action on the 30th the enemy suffered heavily in casualties, and our captures included 365 prisoners, 1 Hotchkiss gun, 1 machine gun, and rifles, equipment and all kinds of ammunition, whilst 214 enemy dead were buried by us. During this period of hard marching and heavy fighting the Buffs specially distinguished themselves on several occasions.

8. As a result of the fighting during the month of April the enemy's 13th and 18th Corps had been driven back on divergent lines, the former into the Jebel Hamrin and the latter to Tekrit. The 13th Corps had twice taken the offensive, with results disastrous to itself, and the 18th Corps had been defeated and driven from its selected positions on four occasions. Our total captures for the month amounted to some 3,000 prisoners and 17 guns, besides a considerable quantity of rolling stock and booty of all kinds. The objectives which we had set out to reach had been secured, and the spirit of the enemy's troops was broken. The fighting carried out during this month had imposed a severe strain upon the troops, for the heat, the constant dust storms, and the absence of water on occasions, tested their stamina very highly. But as conditions became more trying the spirit of the troops seemed to rise, and to the end of this period they maintained the same high standard of discipline, gallantry in action, and endurance which had been so noticeable throughout the Army during the operations which led up to the fall of Baghdad and subsequently.

9. The increasing heat now rendered it necessary that the troops should be redistributed for the hot weather, and that every provision possible under existing conditions should be made with a view to guarding against the trying period which was rapidly approaching. Whilst it was necessary to hold the positions which had been so bravely won and to strengthen them defensively, the bulk of the troops were withdrawn into reserve and distributed in suitable camps along the river banks, where they could obtain the benefit of such breezes as were available and where a liberal supply of water for drinking, bathing and washing was obtainable.

For the remaining five months of the period under review the heat was considerable, and during the latter part of June, July and beginning of August it was intense. Consequently movements could not be undertaken by either side without grave risk of incurring substantial casualties from

heat stroke and heat exhaustion. The troops enjoyed a well-earned respite from the continuous fighting in which they had been engaged during the five months terminating in April, but they were by no means idle. Our hold over the area was made secure, defensive positions and pivots were prepared, and training was carried on in the early mornings, and late evenings as the temperature permitted. Manly sports, too, which are so essential to the well-being of the soldier, especially when temporarily inactive in the military sense, were freely indulged in with beneficial results to the health and future fitness of the Army for service in the field. Arrangements had been made for a proportion of the troops to proceed to India on leave during the summer months, and those who had been on service for a considerable time derived much benefit from the change and rest thus obtained.

10. Early in June a communication was received from our Russian Allies to the effect that in consequence of the increasing heat they had found it necessary to evacuate the line of the Dialah River, and they subsequently withdrew beyond Karind towards Kermanshah. This rendered the occupation of Beled Ruz by us necessary, and this was carried out on the 23rd.

For some time after our occupation of Baghdad tribesmen on the upper reaches of the Dialah, Tigris and Euphrates, above Baghdad, were restless, and it was found necessary to take punitive measures against them. Columns for this purpose operated on the Euphrates from May 3rd to 10th, on the Tigris from May 16th to 24th, and on the Dialah from June 2nd to 8th and June 28th to July 3rd. In each case salutary punishment was meted out to the delinquents. Consequent upon these measures the situation became quiet on each river line, and the tribesmen have, generally speaking, remained peacefully disposed except in the case of the operations against Ramadie referred to below, when the refractory elements were again severely dealt with.

It now seemed desirable to increase our hold on the Euphrates line still further, and it was consequently decided early in July to occupy Sinn El Zibban, some commanding ground on the right bank of the Euphrates, about twelve miles up stream of Feluja, which dominates the left bank of that river at its junction with the Saklawie Canal. As this advance on our part would bring our right bank detachment within striking distance of Ramadie where the enemy was located, the opportunity seemed favourable for attacking him with a view to covering our movement. The enemy's troops at Ramadie, who occupied an entrenched position covering Ramadie from the east and south-east, were estimated at 1,000 rifles with 100 sabres and six guns, besides some 2,000 Arabs of the Delaim tribe.

On the 8th Sinn El Zibban was occupied, and by the 10th the Column destined to attack Ramadie was concentrated there. Careful reconnaissances of the approaches to Ramadie had already been carried out and motor vans and lorries were allotted to carry a proportion of the troops as necessary and thus minimise the amount of marching to be done in view of the heat then existing. Special provisions were also made for water and for ice. After a night march the Column was in touch with the Turks east of Ramadie by 4 A.M. on the 11th and by 8-15 A.M., after considerable opposition our troops had driven in the enemy's advanced troops, and were preparing for the final assault against his main position. But a blinding dust storm now sprang up, and this added to the fact that this day marked the commencement of an abnormal heat wave rendered the position of the troops more and more difficult as time went on. Observation became almost impossible and the interruption of our communications—both wireless and land line—by unlucky circumstances rendered co-ordination of measures for the attack impracticable. It was therefore decided to cancel the order for the attack, but the troops remained in their advanced positions throughout the day and were withdrawn during the night of the 11th-12th to the river bank about Mushaid, where shade was available, but whence they still continued to contain the Ramadie position. On the 12th the heat wave was still increasing and consequently further operations against Ramadie were deemed impracticable, but the troops remained confronting the Turks as there were indications that the latter were meditating retreat. As these indications did not materialise the forces withdrew to Sinn-El-Zibban on the 14th, this

movement being methodically and well carried out, and some 1,500 tribesmen who followed up the rearguard were severely handled by our Artillery and Light Armoured Motor Batteries. The troops throughout the operation evinced a soldierly spirit and inflicted on their opponents severe battle casualties which considerably exceeded their own.

On the Dialah front our aeroplanes reported early in August that the Turks were entrenching a position south-west of Shahraban, and this was confirmed by reports received locally. It was therefore decided to occupy Shahraban without further delay, and for this purpose converging columns were despatched from Beled Ruz and Baqubah on the night of the 18th-19th. On the 19th Misdad was seized at dawn, and on the 20th Shahraban was occupied with slight opposition, the enemy retiring hastily into the Jebel Hamrin. A new line was at once established and consolidated without interference on the part of the enemy.

11. Plans were now maturing for the capture of Ramadie, the garrison of which had been reinforced as a result of the operations in July, but the distance from Baghdad and the bad state of the communications between these two places rendered this matter one of considerable difficulty. Very careful preparations were necessary before these operations could be carried out, and it was September 26th before a column of adequate size could be concentrated within striking distance of Ramadie for this purpose.

The enemy held an advanced position four miles east of Ramadie on Mushaid Ridge which runs north and south, and rises some 60 feet above the plain. To the north of the ridge lies the Euphrates River, and to the south the salt Habbaniyeh Lake. The Turkish main position was semi-circular in outline, and was sited about one mile to the east and to the south of Ramadie. The eastern front ran along but behind the Euphrates Valley Canal and the southern front across bare sandy downs extending from the Euphrates Valley Canal to the Aziziyeh Canal, which leaves the Euphrates one mile west of Ramadie and flows southwards. The plan of operations was to turn the southern flank of the Mushaid Ridge, secure a crossing over the Euphrates Valley Canal, and attack Ramadie from the south with the bulk of the column, whilst the cavalry operating west of the Aziziyeh Canal threw themselves across the enemy's communications with Hit by blocking the Aleppo road. Steps were taken to induce the enemy to expect the main attack against his left on the Euphrates, and with this intent the river was bridged at Madhij and a road was constructed thence up the left bank, whilst supplies were also collected there. The distribution of the troops until the night of the 27th-28th was also designed to give colour to such a movement.

At 6 P.M. on the 27th two infantry columns with the cavalry moved from Madhij to the position of assembly some 5 miles in front of our outposts, and the infantry subsequently made a night advance some 2 miles in a westerly direction to a position of deployment, whence an attack on Mushaid could be delivered at dawn. An infantry detachment also skirted the northern edge of Lake Habbaniyeh, and before daybreak on the 28th had secured important tactical features on and behind the southern flank of the Mushaid position, including a dam across the Euphrates Valley Canal, passable by all arms. This action compelled the enemy to withdraw from Mushaid Ridge, which he shelled heavily subsequently in expectation of its occupation by our troops, but in this he was disappointed, as our infantry moved south of the ridge and crossed the dam. At 7 A.M. the cavalry were transferred from our right to our left flank, their march being screened from the enemy by Mushaid Ridge. They crossed the Euphrates Valley Canal by the dam and pushed westwards across the Aziziyeh Canal to a position astride the Aleppo Road, so as to cut off the enemy's retreat. Meanwhile, to the west of the Euphrates Valley Canal, our left infantry column advanced against the enemy's southern front and occupied and consolidated a position under considerable opposition. In this attack the Dorsets and 5th Gurkhas especially distinguished themselves. Under cover of the attack our right infantry column was withdrawn, and passing in rear of the left column, was subsequently launched to an attack which secured a firm footing on Aziziyeh Ridge. Thus by nightfall the enemy was hemmed in on the south-east and south by our infantry and on the west by the cavalry, whilst to the north ran the River Euphrates.

At 3 A.M. on the 29th the enemy made a determined effort to break through our cavalry and retreat by the Aleppo Road, but after an action

lasting for one and a half hours they were driven back into Ramadie, the Hussars and part of a regiment of Indian Cavalry, with some Horse Artillery and Hotchkiss guns, being mainly instrumental in heading the enemy off. At 6-15 A.M. the infantry attack was renewed from the south-east and south, and our left Infantry column captured successive positions along Aziziyeh Ridge. The 39th Garhwalis seized the bridge where the Aleppo Road crosses the Canal and captured three guns and many prisoners by 7-30 A.M. whilst the 90th Punjabis pushed eastwards through Ramadie and secured the Turkish Commander (Ahmed Bey) at his headquarters near the eastern front of the position. Both these units displayed commendable dash and initiative, and by 11 A.M. the whole of the Turkish force had surrendered.

Throughout the operations, which were continuous, the endurance and fine fighting spirit of the troops was conspicuous, whilst the night operations so successfully carried out testified to the excellence of their discipline and training. During the daytime the heat was considerable, and these operations, which were conducted at some distance from the river, were only rendered possible by the excellence of the arrangements for water supply. A salient factor in these successful operations was the part played by the cavalry. First by their rapid movement round the enemy's rear, and subsequently by the tactical disposition of their machine guns they prevented the enemy's columns from breaking out, and so drove them back into the arms of the infantry. Very useful work was also done by the transport, and especially the motor transport, whilst the medical arrangements for the evacuation of the wounded over some bad ground were most satisfactory. Amongst our captures were included 3,454 prisoners, of whom 145 were officers and 192 wounded, 13 guns, 12 machine guns, 2 armed launches, 2 barges, and large quantities of arms, ammunition, equipment, engineering stores, railway material and supplies.

Simultaneously with the above operations on our left flank, our cavalry operating wide on the right flank of the Army, marched during the night of the 28th-29th and occupied Mendali early on the 29th. The Turkish detachment holding that town fled into the hills, leaving 300 baggage camels in our hands and suffering some casualties from our guns whilst retreating. Mendali had for some time been used by the Turks as a source of supply and its occupation, whilst supplementing our own needs, denied it for this purpose to the enemy.

12. In my former despatch I had occasion to bring to notice the capable handling of the troops by the higher Commanders, assisted by their staffs, and the gallantry, endurance and devotion to duty displayed by the Regimental Officers, Non-Commissioned Officers and men. To this I can only add that the fine record then established has been fully maintained under very trying climatic conditions, and that the fighting spirit, discipline and efficiency of this Army have never stood at a higher level than they do at the present moment. The further training which it has been possible to give the troops will tend to develop still further that close co-operation between all arms which was so noticeable throughout the operation last winter and which is so essential a factor to success in war.

13. Similarly the valuable services rendered to this Army by the Directors and the Administrative Services and Departments were previously dealt with by me in detail. In their case there has been no partial respite from their labours such as has been enjoyed by the fighting troops, for their work at the front, on the lines of Communication and at the Base has continued at the highest pressure. Reorganization, development of our resources and preparation for the future have needed careful thought and unrelaxed efforts on the part of all and the progress made in these directions has been very gratifying. More than a passing word of recognition is therefore due to these individuals, who, in spite of the intense heat during the summer months, have continued to work so assiduously in the interests of the Army.

14. Our communications by water and by land have been thoroughly overhauled to meet the new situation, additional ships and barges have been placed on the river, and our railway system has been developed as rapidly as existing conditions have permitted. The ever-increasing needs of this Army have rendered expansion as regards port facilities at Basrah necessary.

and this has been successfully met by the opening of a subsidiary port in its vicinity, which is being still further developed as the result of the recommendations of a Committee assembled to report upon the matter.

An abnormally low river during the flood season gave rise to some anxiety that this might be followed by a correspondingly low river during the summer months, and, though the river did not fall below its lowest record, it reached as low a gauge as it has touched within reasonable recollection. The work of the Inland Water Transport was therefore from June onwards one of considerable difficulty, and it was due to the skill and energy of the personnel of the I. W. T., and to the admirable buoying of the channels, that the number of serious groundings was almost negligible, and that the service of maintenance in front of the Base was carried on unimpaired.

The work of transportation by the I. W. T. was ably seconded by the development of our railways, and the way in which, in spite of a limited personnel, construction progressed and the railways were worked at constant high pressure is deserving of high commendation.

The health of the troops during the summer months has been uniformly satisfactory, and many of the diseases from which we suffered in previous years—such as cholera, enteric fever and scurvy—were either non-existent or negligible in their extent. This successful result was partly attributable to the untiring work of the officers employed in the bacteriological laboratories, without whose valuable assistance the difficulty of dealing with the epidemic diseases would have been considerably increased. But, although better conditions as regards accommodation and increased facilities for combating the heat resulted generally in a far lower sick rate, an abnormal heat wave which swept over the area in July was responsible for a heavy casualty list. During this time the personnel of the Medical Services were severely taxed, but they resolutely and successfully responded to the calls made upon them. All ranks redoubled their exertions as the situation became more difficult, and the unremitting labours of the Nursing Sisters, many of whom suffered in health themselves, were worthy of the high record for devotion to duty which the Nursing Service has always maintained. The very practical assistance rendered by the British Red Cross Society and Order of St. John during this trying period was typical of the valuable services so consistently rendered by that organization.

The growing needs of this army and the necessity for marshalling all the available resources of this country have necessitated the formation of a special directorate to deal with this matter, and consequently the department of Local Resources which had been in process of construction during the advance on Baghdad took definite shape from the date of our arrival in that City. It will be realised that in a country such as Mesopotamia where supplies, though available in large quantities in certain districts, are organized under no system, the work of placing this matter on a sound footing is one calling for considerable business capacity and energy. It is sufficient, then, in order to show how successful this comparatively youthful organization has been, to record that all districts within reasonable distance of our troops have now been tapped, and that the ramifications of the department have extended very wide beyond the districts which are actually held.

15. The cordial co-operation of the Royal Navy, which yielded such valuable results during the advance on Baghdad, has since then been maintained uninterruptedly. The gun-boat flotilla participated in the fighting during April, rendering substantial assistance to the land forces, and during the summer months when active operations were temporarily suspended much useful patrol work on the Lines of Communication has been performed by it in spite of the low water conditions then existing. I was fortunate in receiving visits in turn from Vice-Admiral E. A. Gaunt, C.B., C.M.G., Naval Commander-in-Chief, East Indies, and Rear-Admiral D. St. A. Wake, C.B., C.I.E., Rear-Admiral in the Persian Gulf and Mesopotamia, and these visits provided an opportunity for the discussion of topics of interest to both services.

16. To the Signal Service and Telegraph Department much credit is due for the rapidity with which they have constructed the extended communications rendered necessary as a result of the operations carried out during last winter. The vast network of lines which has been so quickly erected has been of very real value to the army at large.

On other fronts at Nasariyeh and Abwas and on the Lines of Communication Defences quiet has reigned throughout the period under review, a state of affairs largely due to the firm control exercised by local Commanders over their districts and to the capable manner in which the troops serving under them have carried out their somewhat monotonous duties.

A very high standard of efficiency, too, has been reached by the Imperial Service troops serving with this Army. The excellent spirit, zeal and keenness that has permeated them has proved a valuable asset, and our thanks are due to the ruling Chiefs of India by whose generosity and patriotism these Units have been provided and kept in the field.

17. Since my last despatch several units have come into prominence which were at that time not fully developed. The Light Armoured Motor Batteries began to make their mark during the advance on Baghdad, and since that time they have continued to render valuable services in reconnaissance work, in patrolling and in co-operating with other arms. The cars have been capably handled and the personnel are resolute and determined fighters.

The Field Force Canteen, originally on a small basis, has increased in size at a rapid rate in order to cope with the ever-growing demands of this Army. Branch canteens have been opened in larger numbers month by month at all suitable stations, and these canteens have contributed in no inconsiderable way to the health and well being of the troops at the present time.

The Military Police organisation has, owing to the development of the Force and the extension of our communications, been considerably increased, and the personnel have carried out their responsible duties satisfactorily, often under trying conditions of heat.

18. I wish to acknowledge once again on behalf of this Army the services rendered by those who have worked so zealously at home and in India to supply our needs. The difficulties with which they have had to contend are well recognised here and for this reason our gratitude is the more spontaneous.

19. In closing this despatch I would bring to notice the names of Lieutenant-General Sir W. R. Marshall, K.C.B., and Lieutenant-General Sir A. S. Cobbe, V.C., K.C.B., D.S.O., who have continued to render me every assistance and have commanded their respective Corps with competency throughout the period under review. During the month of April the fighting was severe, but these formations were handled throughout with vigour and judgment. To Major-General Sir H. T. Brooking, K.C.B., K.C.M.G., my thanks are due for his resolute and able handling of the troops during the operations at Ramadie. The practical result of having secured the surrender of the whole force opposed to him is probably the best indication of his tactical skill and ability.

20. The occupation of Baghdad, the consequent extension of our Lines of Communication, the increase in the size of the Force, the development of our resources, and the need for looking well ahead into the future have thrown heavy work upon my Staff, both at General Headquarters and on the Lines of Communication. In spite of the great heat and occasional shortage of numbers in consequence they have responded wholeheartedly to every call made upon them, and I wish to take this opportunity of expressing my appreciation of the unvarying support which they have rendered me and of the efficient manner in which they have carried out their duties.

Major-General Sir George MacMunn, K.C.B., D.S.O., deserves my thanks for the capable manner in which he has carried out his duties as I. G. C. His watchwords have been progress and efficiency, and the development of the Port and City of Basrah under difficult conditions, arising from an insalubrious climate, is a tribute to his energy and perseverance. His efforts have been ably seconded by the Base, Advance Base and Administrative Commandants and those working under their orders.

21. With our advent into Baghdad the duties and responsibilities of the Civil Commissioner, Major-General The Hon. Sir Percy Cox, G.C.L.E., K.C.S.I., already of an exceedingly heavy nature, have increased substantially.

I wish to express my gratitude, to him officially for the assistance which he has rendered me and for the advice which has so readily been placed by him at my disposal from time to time. With his name I should like to associate the personnel of the Political Service working under his orders. Their duties have been responsible and at times dangerous, and they have not hesitated at all times to give of their best and have been the means of seconding the successful efforts of the Army in no small measure.

22. A list giving the names of those Officers, Ladies, Warrant and Non-Commissioned Officers and men whose services are deemed deserving of reward and special mention accompanies this despatch.

I have the honour to be,

SIR,

Your obedient servant,

F. S. MAUDE, *Lieutenant-General,*

Commanding-in-Chief.

Mesopotamian Expeditionary Force.

A. H. BINGLEY, *Major-General,*

MILITARY SERVICE ACT, 1918.

[7 AND 8 GEO. 5, CH. 6F.]

An Act to repeal sub-section (3) of section 3 of the Military Service Act 1916, and to provide for the cancellation of certificates of exemption from military service granted on occupational grounds.

6th February, 1918.

BE IT ENACTED by the King's Most Excellent Majesty, by and with the advice and consent of the Lords Spiritual and Temporal, and Commons, in this present Parliament assembled, and by the authority of the same, as follows :—

6 & 7 Geo. 5, c. 16.

1. Sub-section (3) of section three of the Military Service Act, 1916, as amended by section six of the Military Service Act, 1916 (Session 2), is hereby repealed, and accordingly the Military Service Acts, 1916 and 1917, shall, as respects any man whose certificate of exemption for any reason ceases or has ceased (whether before or after the passing of this Act) to be in force, have effect as though the provisions repealed by this section were not included in those Acts.

2. (1) The Director-General of National Service may at any time by order withdraw any certificate of exemption from military service to which this section applies as from such date, not being less than fourteen days after the date of the order, as may be specified in the order, and as from that date any certificate to which the order applies shall cease to be in force.

(2) This section applies to any certificate of exemption from the provisions of the Military Service Acts, 1916 and 1917, whether granted before or after the passing of this Act, and whether granted by a tribunal or by or under the authority of a Government department, where the certificate was granted or renewed on occupational grounds, and also applies to any certificate so granted or renewed on such grounds to a man who has voluntarily attested, notwithstanding that the certificate has not statutory force.

(3) An order under this section may be made applicable either to individual certificates granted by Government departments, or to certificates granted to any class or body of men specified in the order (whether or not dependent on the obtaining by those men of individual certificates), or to certificates granted to men of any class or description specified in the order, and, as respects any class or body of men or men of any class or description, may be made applicable only to men falling within such limits of age or fulfilling such other conditions as may be specified in the order, and may contain such exceptions and supplemental provisions as the Director-General thinks fit, including giving the right of making an application to a tribunal in exceptional cases.

An order under this section may be revoked, extended, or varied, by a further order of the Director-General, as occasion requires.

(4) Where and so long as an order under this section is in force, then except as otherwise expressly provided by the order—

- (a) no application shall be entertained for the grant or renewal of a certificate, and no certificate shall be granted or renewed where the certificate, if it had been operative at the time at which the order was made, would have come within the terms of the order; and
- (b) no application shall be made by or in respect of a man whose certificate comes within the terms of the order for the renewal of the certificate except on grounds which are not occupational, or for the grant of any certificate on occupational grounds, and no such application if already made shall be proceeded with, and no certificate shall be renewed or granted on any such application;

and any certificate granted or renewed in contravention of the foregoing provisions shall be invalid, but save as aforesaid nothing in this section shall affect any right of a man, whether unattested or attested, whose certificate has been withdrawn under this Act to apply for a renewal of his certificate which he would have had if this Act had not been passed.

(5) An order under this section (other than an order applicable to an individual certificate) shall be laid on the table of both Houses of Parliament as soon as may be after it is made, and if either of those Houses within fourteen days after the order has been so laid presents an address to His Majesty praying that the order, or any part thereof, should be made annulled, His Majesty in Council may annul the order or such part thereof, and it shall thenceforth be void without prejudice to the validity of anything done in pursuance thereof: Provided that section one of the Rules Publication Act, 1893, shall not apply to an order made under this section. 55 & 57 Vict. c. 86.

(6) Where an order under this section applicable to an individual certificate is made, notice thereof shall be served on the man effected thereby and may be served by sending it to him by registered post to his last known address.

(7) For the purposes of this section a certificate shall be deemed to have been granted or renewed on occupational grounds which was granted or renewed wholly or partly on any of the grounds specified in paragraph (a) of sub-section (1) of section two of the Military Service Act, 1916, or (in the case of voluntarily attested men) on any similar grounds, or which, in either case, was granted or renewed by or under the authority of any Government department; and if any question arises whether a certificate was granted or renewed on occupational grounds, the question shall be referred to the Director-General, whose decision thereon shall be final.

3. This Act may be cited as the Military Service Act, 1918, and the Military Service Acts, 1916 and 1917, and this Act shall be construed together and may be cited together as the Military Service Acts, 1916 to 1918.

FIELD OPERATIONS.

No. 884.—The following despatch on the operations against the Mahsuds, March to August 1917, is published for general information.

Letter No. 18985-1, dated Delhi, the 20th December 1917.

From—The Chief of the General Staff,

To—The Secretary to the Government of India, Army Department.

I am directed by His Excellency the Commander-in-Chief to forward for the information of the Government of India, a despatch by Lieutenant-General Sir A. A. Barrett, K.C.B., K.C.S.I., K.C.V.O., Commanding, Northern Army, on the operations against the Mahsuds, March to August 1917.

2. His Excellency desires to bring to notice the admirable services rendered by—

(a) General Sir A. A. Barrett, K.C.B., K.C.S.I., K.C.V.O., who had the direction of the operations.

(b) Major-General Sir W. G. L. Beynon, K.C.I.E., C.B., D.S.O., who commanded the South Waziristan Field Force.

3. His Excellency also wishes to acknowledge the great assistance afforded to the Government of India by the three regiments of the Nepalese contingent who took part in these operations.

General Sir Baber Shumshere Jang, Bahadur Rana, K.C.I.E., in his capacity as representative of the Nepalese Army and liaison officer afforded Sir William Beynon all possible help, advice and support.

No. W.-4171, dated Murree, the 20th September 1917.

From—LIEUTENANT-GENERAL SIR A. A. BARRETT, K.C.B., K.C.S.I., K.C.V.O., Commanding, Northern Army,

To—The Chief of the General Staff, Army Headquarters, Simla.

I have the honour to furnish, for the information of His Excellency the Commander-in-Chief, the following report on the operations undertaken against the Mahsuds during the period March to August 1917.

2. On 26th February, news was received at Wana that a large Mahsud *lashkar* was moving against Sarwakhal, one of the posts garrisoned by the South Waziristan Militia. The Commandant of the Corps at once strengthened the garrison, which, by operating outside the post on 2nd March successfully kept the Mahsuds at bay. On the following day, however, after inflicting considerable losses on the enemy, it had to withdraw into the post, having suffered many casualties, including the loss of its British officer, killed.

On learning of this attack, Brigadier-General G. M. Baldwin, D.S.O., Commanding the Derajat Brigade, ordered the concentration of the Derajat Movable Column at Murtaza.

3. On 4th March, I received orders from the Chief of the General Staff to assume control of the operations necessary to deal with the Mahsud outbreak, and directed the General Officer Commanding, Derajat Brigade, to proceed at once with the Movable Column to the relief of Sarwakai. I also ordered the despatch to Tank of the 44th Infantry Brigade, which had already been warned to stand ready to support the Movable Column, and of the 23rd Indian Mountain Battery.

4. In accordance with these orders the Derajat Movable Column advanced up the Gomal and relieved Sarwakai on 9th March. Some 3,000 to 4,000 Mahsuds had remained in the vicinity of the post with the apparent intention of opposing the column, but on its approach the *lashkar* withdrew. On 10th March, General Baldwin, whose column had been augmented by a detachment of 250 South Waziristan Militia, under Major G. E. Davis, the Commandant of the Corps, advanced to Barwand, a village in the Shabur Valley, where punitive measures were carried out in face of some opposition. The column retired to Sarwakai the same day and on the 11th proceeded to Khajuri Kach, where it remained for the rest of the month. With the exception of an attack on a piquet on the Gwaleri Pass, no further hostile acts were committed by the Mahsuds during March.

Meanwhile, the 44th Infantry Brigade with the 23rd Indian Mountain Battery had been concentrated at Tank by 11th March, and on 12th it marched to Jatta, at which place it was well situated to support the Movable Column up the Gomal Valley or the garrison of Jandola.

5. Representatives of certain sections of the tribe were interviewed towards the end of March by Mr. J. A. O. Fitzpatrick, C.I.E., the Political Agent, Wana, and, as it appeared that there was little likelihood of further trouble, orders were issued for the return of the Derajat Movable Column to Tank, which place was reached on 3rd April, and for the dispersal to their stations of the units of the 44th Infantry Brigade.

The hope that the Mahsuds would remain quiet was, however, quickly dispelled, as on 9th April the piqueting troops of a convoy proceeding over the Gwaleri Pass towards Nili Kach were attacked. Consequently the Derajat Movable Column was directed to proceed again up the Gomal, and one section of the 23rd Indian Mountain Battery and the 14th Gurkha Rifles of the 44th Infantry Brigade were ordered to return to Tank. The Movable Column arrived at Khajuri Kach on 17th April; and on 21st, whilst proceeding from Tanai to Wana, it was opposed by a considerable body of tribesmen in the defile near Karabkot. The passage of the defile was successfully forced, the casualties suffered by the column not being heavy, and on 24th April the column returned from Wana to Tanai, where it was suitably placed to operate in the direction of either Sarwakai or Wana.

6. On 1st May, another attack was made by a strong party of the enemy on a convoy proceeding from Nili Kach to Khajuri Kach. The convoy escort was taken at a disadvantage and the losses suffered by it were severe. On hearing of this attack, Brigadier-General Baldwin at once despatched 500 rifles from Tanai to Sarwakai with a view to intercepting the Mahsuds returning to their country, and, on the following day, a party of Militia from Sarwakai, supported by some of the above detachment, succeeded in coming up with the raiders and inflicting casualties upon them. On 2nd May, Brigadier-General Baldwin's column moved to Khajuri Kach and arrived the following day at Nili Kach.

It will be observed that the Mahsuds, in all their attacks on convoys proceeding along the Gomal route, selected for the purpose the stage between Nili Kach and Khajuri Kach. The country in this stage, in which the Gwaleri Pass has to be crossed, is extremely difficult and peculiarly favourable to the tribesmen's tactics. No movement of troops can be hidden from Mahsuds on the hill tops; the track in many places follows deep *nalas* with precipitous sides; and the very broken and intricate nature of the country affords every advantage to the enemy for concealment, and for subsequent withdrawal.

7. The attack made by the enemy on 1st May, combined with the increased raiding by large gangs into the Derajat district, showed that the Mahsuds were becoming emboldened and it became necessary to increase the strength of the garrison of the Derajat. Three additional infantry battalions which, with the 14th Gurkha Rifles, formed the 43rd Infantry Brigade, under the command of Brigadier-General W. M. Southey, C.M.G., and two sections of mountain artillery were therefore ordered to Tank; the 107th Pioneers and No. 7 Field Company, Sappers and Miners, having been previously sent into

the area to improve communications. On 6th May, the force in the Derajat was constituted the Derajat Field Force, and Major-General W. G. L. Beynon, M.C.E., C.I.E., D.S.O., was appointed to command with Sir John Donald, K.C.I.E., C.S.I., as his Chief Political Officer. On the 12th May, the Bannu Brigade under the command of Brigadier-General the Hon'ble C. G. Bruce, M.V.O., was placed under General Beynon's orders and the troops in the Derajat and Bannu Brigades were designated the Waziristan Field Force.

8. Whilst these reinforcements were moving into the Derajat, an action was fought on 10th May in the vicinity of Sarwakai. The Officer commanding the post, Major L. P. Collins, D.S.O., 1-4th Gurkha Rifles, hearing that a body of the enemy was retiring from the vicinity of Tormandu, moved out during the night of 9th-10th with a force of 450 rifles, comprising 1-4th Gurkha Rifles, 1st Rajputs, and South Waziristan Militia, with the object of intercepting the enemy's retreat. At dawn, the Mahsuds were successfully surprised, but large enemy reinforcements arriving, very fierce hand to hand fighting took place. As there was danger of being surrounded the Officer Commanding the detachment rightly decided to withdraw to Sarwakai. Although our losses in this engagement were severe, those inflicted on the enemy were also heavy and included the leader of the *lashkar*. Great praise is, I consider, due to the troops, who were largely composed of young soldiers, for the steadiness and gallantry with which they fought.

9. Hitherto only certain sections of the Mahsuds had been hostile and it had been hoped that the operations could be confined to those necessary for the security of the Gomal, and the protection of the Derajat border. It was most desirable to avoid, if possible, undertaking offensive operations during the hot weather when the climatic conditions in the Derajat are of the worst description. Also, as soon as the rains commence, the railway and road communications are very liable to interruption. The confidence of the hostile sections of the Mahsuds in their immunity from punishment had, however, resulted in bringing in other sections of the tribe against us, and, on the 19th May, Government sanctioned the taking of punitive measures, with the Khaisara Valley as the objective.

10. To carry out these offensive operations the force in the Derajat was reinforced by the 45th Infantry Brigade, under the command of Brigadier-General C. C. Luard, two battalions of the 44th Infantry Brigade, one section No. 1 British Mountain Battery, and No. 11 Field Company, Sappers and Miners.

In order to protect the Bannu district, four additional battalions, two of which belonged to the 44th Brigade, commanded by Brigadier-General G. D. Crocker, were added to the garrison.

11. Meanwhile, on 16th May, a Mahsud *lashkar*, believed to have been of a strength of some 2,000 men, attacked, on the Gwaleri Pass, the second echelon of a convoy proceeding up the Gomal to ration Sarwakai and Wana. The convoy was unable to get through, and returned to Nili Kach. Major-General Beynon, therefore, directed Brigadier-General Southey to march from Murtaza to Nili Kach with two battalions. This General Southey was unable to do until 20th owing to the Gomal river being in flood. The convoy then proceeded to Wana without further incident.

12. The accumulation of supplies preparatory to carrying out of punitive measures in the Khaisara Valley from Wana had now to be undertaken. The Gomal river, however, again came down in flood, and the disadvantage of utilizing, as a line of communication, a route traversing the long and dangerous defile of the Gomal and liable to be interrupted for long periods by floods in the river, made it desirable to consider the possibility of utilizing an alternative line into the Khaisara. Major-General Beynon, therefore, submitted proposals, which had my full approval, for operations via Jandola and the Shahur Valley. On 26th May, these proposals were sanctioned by Government. In order to facilitate the passage of Major-General Beynon's main force through the Shahur *hingi* between Jandola and Haidari Kach, at which defile it was probable that the Mahsuds would endeavour seriously to oppose the advance of the force, it was decided that a detachment of two battalions and a section of mountain guns should be located at Sarwakai, from which place it could operate against the rear of any enemy holding the defile.

Steps were taken at once for the formation of an advanced base and for the accumulation of supplies at Jandola; also for the completion of the garrison of Sarwakai up to the strength decided upon.

13. Up to the end of May no hostile acts had been committed by the Mahsuds in the Tochi. On 31st, however, Tut Narai, a small post, garrisoned by the North Waziristan Militia was captured by a ruse, the *laahkar* taking part being estimated to be some 600 strong. Owing to the fire brought to bear on the attackers by men holding the two outlying towers and to the rapidity with which the local village pursuit parties were turned out by Major F. H. Humphrys, the Political Agent, Tochi, the enemy were unable to damage the post. Brigadier-General Bruce, who was at Miranshah with the Movable Column, ordered Tut Narai to be at once regarrisoned and a small column under the command of Major G. B. Scott, D.S.O., Commandant, North Waziristan Militia, was despatched the same evening and effected its object without incident.

14. By the 9th June, Major-General Beynon's striking force and the line of communication troops destined for Jandola and the posts beyond were concentrated at Jandola. During this concentration the only aggressive action taken by the enemy was a determined attack on 7th June by a party of 300 men against a piqueting detachment, consisting of two British officers and 89 men of 2-1st Gurkha Rifles, near the Zam Post. The enemy was driven off with heavy loss; our losses, as a result of the close fighting in scrub jungle, also being severe.

15. As Major-General Beynon was now about to proceed in command of this striking force up the Shahur Valley, it became apparent that he would not be in a position effectively to control any operations which might become necessary on the Tochi side. Consequently His Excellency the Commander-in-Chief decided that the troops in the Bannu and Derajat areas should again become separate forces, being designated the North and South Waziristan Field Forces, respectively, under the general control of the General Officer Commanding, Northern Army. Orders giving effect to this decision were issued on 14th June.

16. On 13th June sufficient supplies had been collected at Jandola to admit of Major-General Beynon advancing up the Shahur Valley. Prior to this, he had, on 12th, moved out to attack a considerable body of the enemy near the junction of the Shahur and Takhi Zam; the enemy did not, however, make a stand. On 13th, a reconnaissance was carried out to the eastern end of the Shahur *tangi* and a double camel track was cleared up the river bed. The following day the 45th Brigade proceeded to the Chagmalai at the eastern entrance of the defile and on the 15th seized the heights commanding it, under cover of which the 43rd Brigade advanced to Haidari Kach, whilst the force at Sarwakai demonstrated in the direction of Turan Chinn. The passage of the Shahur *tangi* was unopposed and the Sarwakai column was successful in killing and capturing a few of the enemy in Kamardun village.

17. On 16th June, the 45th Brigade joined the main body of the force at Haidari Kach. The three following days were occupied in carrying out punitive measures in the vicinity, in improving the road through the defile and in reconnoitring the route to Burwand. Reports were now received that the Mahsuds intended strongly to oppose the further advance of Major-General Beynon's force and, on 19th June, when the force moved to Burwand, considerable opposition was met with. During the whole of the ensuing night several hundred of the enemy made determined efforts to capture a piquet of the 54th Sikhs (F. F.) under the command of an Indian officer. This piquet, although sustaining heavy losses, was successful in maintaining its position. Major-General Beynon describes the defence as a most gallant one, which not only worthily upheld the fine traditions of the battalion and of the Punjab Frontier Force, but, as was admitted by the Mahsuds at the final *jirga*, contributed in no small measure to inspiring the tribe with respect for His Majesty's troops and a general desire for peace.

On 20th, for reasons of water-supply, the force moved forward a short distance to Ispana Raghza. The enemy made a determined attempt to check the advance, but the 43rd Brigade overcame the opposition, the work of the 1-25th London Regiment and the 1-4th Gurkha Rifles being specially noticeable.

On 21st, Major-General Beynon ordered the 45th Brigade to destroy the village of Nann at the head of the Splitoi Valley, whilst the 43rd Brigade dealt with the settlements in the vicinity of Ispana Raghza. The enemy had evidently determined to make a stand on this occasion, and aeroplanes reported considerable bodies of the enemy on the ridge, dividing the Splitoi and Shahur valleys through which ran the pass to Nann. The 45th Brigade attacked the pass with great spirit and dash, the 2-6th Sussex Regiment

moving against the pass itself, whilst the 2-1st (King George's Own) Gurkha Rifles, and the Mahindradal Regiment, Nepalese contingent, seized the heights to the south and north of the pass, respectively. The enemy was driven off, Nana village destroyed and the retirement of the troops to camp effected with only slight molestation. Major-General Beynon brings to notice the most creditable manner in which the Mahindradal Regiment carried the heights forming its objective and also the valuable work performed by the aeroplanes of the 31st Squadron, Royal Flying Corps, both in reconnaissance and in bombing the enemy. The defeat of the enemy on this occasion appears to have brought home to the enemy the futility of attempts to oppose the British *Raj* and messages asking for terms of peace begun from now to be sent in.

On 22nd June, the 43rd Brigade destroyed the large village of Shah Salim Mela in the Waspas Valley. The enemy had made careful preparations for opposing the advance; but, owing to the good dispositions made by Lieutenant-Colonel C. O. O. Tanner, Commanding the Brigade, the whole of the enemy's defence was turned and our casualties were slight.

18. Sufficient supplies having now been collected to enable the advance to be resumed, the striking force moved on 23rd to Narai Raghza. A very difficult defile had to be negotiated in the face of opposition which was cleared away by the 45th Brigade. During the following night the camp was heavily sniped and several piquets were attacked, one of the 1-4th Gurkha Rifles coming in for a particular share of the enemy's attention. The possession of bombs assisted considerably in the defence of these piquets.

On 24th Major-General Beynon directed the 43rd Brigade to capture the Shrawani Pass to cover the passage through it of the 45th Brigade which was to carry out punitive measures in the Khaisara. The heights leading to and commanding this Pass were seized by the 1st Rifles, Nepalese Contingent, 54th Sikhs (F. F.) and the 1-4th Gurkha Rifles. The enemy was forestalled and the 45th Brigade was rapidly pushed through into Khaisara Valley. Under cover of the right flank guard, which was continuously engaged with the enemy, the destruction of all the villages within reach was proceeded with; the villages in the Nana Khel-Ghazi Kot area and the Machi Khel settlements being thoroughly dealt with, practically all the towers of these villages being blown up. The retirement was then ordered. This movement was hotly followed up and a piquet of the 55th Coles' Rifles (F. F.) was charged, but the enemy was driven back with loss. Major-General Beynon brings to notice the skilful manner in which the retirement of the 45th Brigade was carried out by Brigadier-General Luard. Major-General Beynon's intentions were to visit the Khaisara again on the following day, but messengers had arrived from Kaniguram asking for terms of peace, and the Chief Political Officer considered that the damage already effected was sufficient. Accordingly, on 25th, after destroying a village in the vicinity of the camp, the force returned with slight molestation to Ispuna Raghza.

19. Whilst these operations were taking place several raids were carried out by aeroplanes of the 31st Squadron, Royal Flying Corps. Shingai villages in the Takhi Zam and others in the Badda Toi were bombed and in a particularly successful raid on 26th June nine hits were scored on Makin and six on Murobi, the home of Mulla Fazl Din, the titular chief of the tribe. These raids involved considerable risks. Engines were very liable to failure in the high temperature prevailing; distances from the base at Tank were long and hills up to 8,000 feet had to be crossed. These risks were, however, cheerfully taken by the flying officers and were well repaid by the results obtained, which undoubtedly contributed largely to the general desire for peace displayed by all sections of the tribe.

20. A letter had now been received from a *jirga* at Kaniguram asking for Government terms of peace. These were communicated verbally, and the messengers were informed that military operations would be suspended until 2nd July on which date representative *maliks* were ordered to come in.

On this date the *maliks* from Kaniguram arrived at Boji Khel, to which place General Beynon had transferred his force on 28th and 29th June owing to the water-supply at Ispuna Raghza being unsatisfactory. The *maliks* accepted the terms imposed and hostages were given for their due fulfilment.

On 9th July, the first instalment of the rifles demanded from the tribe was handed in and fresh hostages were given pending final settlement. The attitude of the tribe being now very satisfactory, Major-General Beynon's force moved back, on the 11th and 12th July, to Manzal at the junction of the

Shahur and Danawat Valleys, the post at Haidari Katch being at the same time transferred to Chagmalai.

Owing to the difficulty experienced by the *maliks* in collecting the rifles which had to be surrendered, the final *jirga* could not be held as early as had been hoped, but on the 10th August a full representative *jirga* of 3,000 Mahsuds ratified the settlement; peace was declared and British territory opened to them for trade. By 12th August all troops had been withdrawn to Jandola and the dispersal of the forces in the Derajat and Bannu areas commenced.

21. Whilst these operations had been taking place, the troops under Brigadier-General Bruce in the Bannu area were not called upon to undertake any offensive measures. The presence of strong forces at Bannu and Miramshah deterred the Mahsuds from raiding into the Bannu district and Tochi Valley and kept them in a state of uncertainty as to whether an advance from Miramshah might not be contemplated. On one occasion only was it necessary for Brigadier-General Bruce to act against a body of the enemy. This was on the 14th June when a body of Mahsuds approached the Saidgi defile in the Tochi Valley with the object of attacking the 1st Kent Regiment marching to Miramshah. The prompt concentration of troops, both from Miramshah and Bannu, to effect which mechanical transport was largely employed, successfully prevented the enemy from carrying out his design.

22. The physical and climatic conditions of this portion of the North-West Frontier are peculiarly trying and the period during which the recent offensive operations had to be undertaken was the hottest time of the year. Nothing, however, could have exceeded the cheerfulness and determination with which all difficulties and hardships were faced and overcome by the troops; not only by those actively engaged against the enemy, but by those on the lines of communication who, at first in the Gomal and later in the Shahur Valley, were continuously employed on piqueting duties in difficult and dangerous country.

23. At the time when it was decided to take the offensive the most unfavourable season of the year was just commencing. It was necessary that operations should be undertaken with the least possible delay and with a force of adequate size to ensure rapid success. This entailed the immediate expansion of the force already available, which threw a great strain on the communications leading into the area. The Kalabagh-Bannu-Tank narrow gauge line was inadequately equipped for the movement of large bodies of troops and was liable to interruption in the event of heavy rain. The unbridged passages of the Indus at Kalabagh and Darya Khan added greatly to the difficulties to be overcome. Consequently the work of those responsible for the communications was very arduous and the manner in which those duties were carried out is worthy of great praise. The administrative services and departments had also to work under high pressure and adverse conditions and their untiring efforts contributed greatly to the success of the operations. The Supply and Transport and Ordnance Services successfully met all the demands made upon them. The Medical Services, under the direction of Colonel P. Hehir, C. B., C. M. G., I.M.S., by the timely use of precautionary measures, were able to prevent the outbreak of epidemics and the arrangements made for the reception and evacuation of the large numbers of sick, which it was anticipated would have to be dealt with as a result of the great heat and unhealthy theatre in which the operations took place, were fully adequate to deal with the casualties which occurred. The provision and equipment of base hospitals and convalescent depôts at Rawalpindi and in the Murree Hills was quickly carried out under the orders of the General Officer Commanding, 2nd (Rawalpindi) Division, and amply sufficed to meet all requirements.

The Royal Engineers had to carry through much work, especially in connection with hospital accommodation, which was expeditiously and satisfactorily executed.

Whilst Major General Beynon's striking force was in the Shahur Valley, sections of No. 3 Wireless Signal Squadron had to be relied on almost entirely for maintaining communications with it, and great credit is due to these sections for the way in which they coped with the heavy traffic.

24. I wish to express my thanks to the North-Western Railway authorities for the manner in which the transport of troops and supplies was carried out, especially over the narrow gauge railway in the Trans-Indus area. The congestion on this line was very great and it was only

owing to the unceasing exertions of the personnel of this line that the heavy traffic was successfully dealt with, in spite of inadequate rolling-stock and frequent interruptions due to damage to the permanent-way caused by floods.

The operations throw a heavy amount of work on the Posts and Telegraph Department, for the successful coping with which I desire to express my gratitude and thanks. I also wish to thank the Red Cross Society and those who contributed to sending comforts to the troops for their gifts, which were most acceptable to the recipients.

25. I am greatly indebted to the advice and assistance I have received from the Hon'ble Lieutenant-Colonel Sir George Roos-Keppel, G.C.I.E., K.C.S.I., Chief Commissioner, North-West Frontier Province, and to the manner in which the Political Officers attached to the North and South Waziristan Field Forces carried out their duties. Also for the assistance rendered by the North and South Waziristan Militias and Frontier Constabulary.

Application must therefore be made to the War Trade Department for licences to export goods which fall within the aforementioned copper prohibition on account of the quantity of copper contained therein. Such applications should always indicate clearly the actual quantity of copper and/or copper alloys the goods contain.

LIST F.

Goods of every description [other than (1) printed matter of all descriptions, and (2) personal effects accompanied by their owners], whether mentioned in the foregoing lists or not, are prohibited from export to Norway, Sweden, Denmark and Holland in accordance with the Royal Proclamation of 29th September 1917.

In this connection attention is drawn to the following reprint of a notice which appeared in the Public Press of the 4th October 1917:—

The Director of the War Trade Department calls attention to the Royal Proclamation of September 29th, 1917, prohibiting the export, as from October 8th, 1917, of all goods (with the following exceptions) to Sweden, Denmark, Norway and Holland:—

- (1) Printed matter of all descriptions (which will remain subject to the censorship regulations).
- (2) Personal effects accompanied by their owners.

It is not proposed immediately to refuse all consideration of applications for the grant of licenses for the export of goods which have not hitherto been prohibited from export to Norway, Sweden, Denmark and Holland, but which now become prohibited under the Royal Proclamation in question. Exporters are warned, however, that the continuance of this arrangement must not be counted upon. The special arrangements in regard to the export of goods to Sweden, notified in the announcement issued by the War Trade Department on August 18th, 1916, are withdrawn as from October 8th, 1917; Sweden being thus placed on the same footing as the other Scandinavian countries and Holland. This order also applies to articles consigned by parcels post.

3. The following gold coin shall be coined at the Mint for issue under the authority of the Governor General in Council, namely, a gold mohur or fifteen rupee piece.
4. The standard weight of the said gold mohur shall be 128·27447 grains troy. Its standard fineness shall be as follows, namely: eleven-twelfths fine gold and one-twelfth of alloy:
- Provided that in the making of the coin a remedy shall be allowed not exceeding one-fifth of a grain in weight and two-thousandths in fineness.

- Provided that the coin—

- (b) has not been defaced,
7. (1) Where any gold mohur which has been coined and issued under the authority of the Governor General in Council is tendered to any person authorised to act under section 16 of the Indian Coinage Act, 1906, and such person has reason to believe that the coin
- (a) has been diminished in weight so as to be of less weight than 122½ grains, or
- (b) has been defaced,

- (2) A person cutting or breaking coin under the provisions of subsection (1) shall return the pieces to the person tendering the coin who shall bear the loss caused by such cutting or breaking:
- Provided that in the case of a defaced coin, if the person so cutting or breaking has reason to believe that the coin has not been fraudulently defaced within the meaning of section 18 of the Indian Coinage Act, 1906, and the coin is not of less weight than 122½ grains, he shall receive and pay for the coin at its nominal value.
8. The provisions of section 20 of the Indian Coinage Act, 1906, shall apply in the case of gold mohurs as if that section referred to gold coin and gold bullion, and any person authorised under that section may exercise in respect of gold mohurs the powers conferred thereby.
9. The Governor General in Council may make rules to carry out the purposes and objects of this Ordinance.

[29th November 1917.]

BE it enacted by the King's most Excellent Majesty, by and with the advice and consent of the Lords Spiritual and Temporal, and Commons, in this present Parliament assembled, and by the authority of the same, as follows:—

PART I.

ESTABLISHMENT OF AIR FORCE.

1. It shall be lawful for His Majesty to raise and maintain a force, to be called the Air Force, consisting of such number of officers, warrant officers, non-commissioned officers, and men as may from time to time be provided by Parliament.

Raising and number of Air Force.

2. (1) Subject to the provisions of this Act it shall be lawful for His Majesty, by order signified under the hand of the Secretary of State, to make orders with respect to the government, discipline, pay, allowances, and pensions of the Air Force, and with respect to all other matters and things relating to the Air Force, including any matter by this Act authorised to be prescribed or expressed to be subject to orders or regulations.

Government, discipline, and pay of Air Force.

(2) The said orders may provide for the formation of men of the Air Force into separate units and for the formation of such units into corps, and for appointing, transferring, or attaching men of the air force to units, and for posting, attaching, and otherwise dealing with such men within the units, and may regulate the appointment, rank, duties, and numbers of the officers and non-commissioned officers of the Air Force.

(3) Subject to the provisions of any such order, the Air Council hereinafter constituted may make general or special regulations with respect to any matter with respect to which His Majesty may make orders under this section:

Provided that the administration of pensions, other than service pensions within the meaning of the Ministry of Pensions Act, 1916, shall vest in the Minister of Pensions.

4 & 7 Dec. 6, a.
88.

(4) All orders and general regulations made under this section shall be laid before Parliament as soon as may be after they are made.

3. (1) Any officer, warrant officer, petty officer, non-commissioned officer, or man of any of His Majesty's naval or military forces may, with his consent and subject to the approval of the Admiralty or Army Council (as the case may be), be transferred by the Air Council to the Air Force, or attached by the Air Council to the Air Force for the period of the present war or for a period not exceeding four years:

Transfer and attaching to Air Force of members of Naval and Military Forces.

Provided that—

(a) any officer, warrant officer, petty officer, non-commissioned officer, or man who at such date as may be fixed by Order in Council belongs or is attached to the Royal Naval Air Service, the Royal Flying Corps or any unit of the naval or military forces engaged in defence against aircraft which is designated by the Admiralty or Army Council for the purpose, may be so transferred or attached without his consent, but if any person so transferred or attached, within three months from the time when he receives notice of such transfer or attachment or such longer period as in any particular case the Air Council may allow, gives notice to his commanding officer that he does not desire to be so transferred or attached, the transfer or attachment shall be annulled without prejudice to the validity of anything which may have been done in the meanwhile; and

(b) no person transferred to the Air Force under the provisions of this section shall be liable to serve with the Air Force for any longer period than that for which he would have been liable to serve had he continued in the force from which he was transferred.

(2) Regulations made by the Air Council may provide that in the case of a person so transferred, the time during which he held a commission or served in the force from which he is transferred shall, for such purposes as may be prescribed, be aggregated with the time during which he holds a commission or serves in the Air Force, and that his entry into or enlistment in the force from which he is transferred shall, for such purposes as may be prescribed, be treated as enlistment into the Air Force.

(3) Where any person is transferred to the Air Force under this section, then for the purpose of pay, pensions, gratuity, and retired or half-pay, and of any decoration or reward dependent on length of service, any previous service with His Majesty's naval or military forces which would have counted as service towards pay, pension, gratuity, retired or half-pay, or such decoration or reward if he had not been so transferred, shall be deemed to be service with the Air Force towards pay, pension, gratuity, retired or half-pay, or such decoration or reward.

(4) Where any person is attached to the Air Force under this section, the fact that he is so attached shall not affect any right to any pay, pension, gratuity, retired or half-pay, or such decoration or reward as aforesaid, already earned by him in that branch of His Majesty's naval or military forces to which he belonged at the date on which he was so attached, and the period during which he is so attached shall, for the purpose of any provisions relating to pay, pensions, gratuity, retired or half-pay, or such decoration or reward, be deemed to be service with that branch of His Majesty's naval or military forces to which he belonged at the date on which he was so attached.

4. Officers in the Air Force shall enjoy all such powers, rights, immunities, and privileges as are enjoyed by commissioned officers of His Majesty's Navy or Army as such,

whether conferred by Statute or otherwise, and the acceptance of a commission in the Air Force shall not render a person accepting such a commission incapable of being elected to or sitting or voting in the Commons House of Parliament, and nothing in the Succession to the Crown Act, 1707, or any similar enactment shall extend to any member of the Commons House of Parliament who, being an officer of the Air Force, receives any new or other commission in the Air Force, or receives a commission in His Majesty's Navy or Army, or who, being an officer in His Majesty's Navy or Army, receives a commission in the Air Force.

5. (2) There shall be included amongst the exceptions mentioned in the First Schedule to the Military Service Act, 1916, the following:—

Men serving in the Air Force.

6. (1) It shall be lawful for His Majesty to raise and maintain an Air Force Reserve and an Auxiliary Air Force consisting in each case of such number of officers, warrant officers, non-commissioned officers, and men as may from time to time be provided by Parliament, and to provide for the transfer or attachment to the Auxiliary Air Force, subject to their consent, of officers and men of any unit of the territorial force which at the passing of this Act forms part of the Royal Flying Corps.

(2) His Majesty may, by Order in Council, apply with the necessary adaptations to the Air Force Reserve, or to the Auxiliary Air Force, or to the officers or men of any such force, any enactment relating to the Army Reserve or to the Territorial Force or to the officers or men of those forces, and such Order in Council shall be laid before both Houses of Parliament.

7. The amendments set out in the second column of the tables in Part I and Part II of the First Schedule to this Act (being amendments consequential on the establishment of an air force) shall be made in or inserted after the provisions of the Naval Discipline Act and the Army Act respectively mentioned in the first column of those tables, and section two of the Naval Discipline Act,

(4) Where, by any enactment passed after the passing of this Act and for the time being in force, any enactments or words are directed to be substituted in the Army Act or the Air Force Act for any other enactments or words, or to be added to or omitted from the Army Act or the Air Force Act, then all copies of the Air Force Act printed after such direction takes effect shall be printed with the said enactments or words added to the said Act or omitted therefrom, or inserted therein in lieu of any enactments or words for which the same are to be substituted, according as such direction requires, and with the sections and sub-sections numbered in accordance with such direction, but, as respects amendments to the Army Act, subject to such modifications and exceptions as aforesaid, and the Air Force Act shall be construed as if it had at the time at which such direction takes effect been enacted with such addition, omission, or substitution.

Orders by the Governor of Bengal in Council.

MUNICIPAL AND LOCAL.

NOTIFICATIONS.

No. 74M.—*The 10th January 1918.*—The following draft of rules which, in exercise of the power conferred by section 290 of the Bengal Municipal Act, 1884 (Bengal Act III of 1884), the Governor in Council proposes to make and subject to which the Commissioners of the Burdwan Municipality may allow communication-pipes to be laid down from the service-pipes of the Commissioners for the purpose of leading water to premises for domestic purposes only are published for the information of persons likely to be affected thereby.

II. The draft rules will be taken into consideration on the 15th February 1918, and any objection or suggestion which may be received by the undersigned through the District Magistrate before that date will be duly considered.

Draft Rules.

So long as the Commissioners deem it practicable and consistent with the maintenance of an efficient water-supply, they may allow any owner or occupier of a holding paying a water-rate imposed under the provisions of Part VII of the Bengal Municipal Act, 1884, on the annual value of such holding, when such annual value is not less than Rs. 100, to lay down communication-pipes from the service-pipes of the Commissioners for the purpose of leading water to such holding for domestic purposes only, subject to the following rules and conditions:—

1. The owner or occupier of any holding requiring water to be laid on to such holding for domestic purposes, or requiring any addition or alteration to an existing water-supply, must apply for the same on a printed form to be supplied, free of cost, at the Municipal Office.

2. A fee of Rs. 125 must be paid to the Commissioners by such owner or occupier for each connection to a municipal main supply-pipe before any work is commenced, such fee to be in addition to all other costs and charges imposed under these rules.

3. Each holding must have a separate connection to the municipal main supply-pipe, and extension from the communication-pipe of one holding to another holding shall not be permitted:

Provided that no holding shall have more than one separate connection, but if in any case the Commissioners at a meeting are satisfied that an adequate supply to any holding cannot be given through a single connection, they may sanction a second connection thereto.

4. The owner or occupier of the holding in respect of which the connection is required must pay the entire cost of the connection, including the supply and fixing of the fittings referred to in rule 7, and must also pay the cost of such alterations in, or repairs to, roads, drains, sewers, gas or water-mains or pipes, and the cost of such other works as may be necessitated by, or result from, the work of making such connection.

5. The owner or occupier of the holding to which a connection has been given must, at any time, on receipt of notice to do so from the Commissioners, pay the entire cost of any repairs or alterations to the connection or any part thereof that the Commissioners may consider necessary to put it into a satisfactory condition, or which may be necessitated by any change in the Municipal water-works or system of distribution, or by the defective condition of the connection or any part thereof, or by any other cause whatever.

6. (1) The works required under rules 4 and 5 may, at the option of the Commissioners, either be carried out by the Commissioners themselves at the expense of the owner or occupier of the holding in respect of which the works are required, or may be carried out by a person or firm employed by such owner or occupier and approved by the Commissioners.

(2) No work shall be carried out under sub-rule (1), except under the supervision of a Municipal Officer.

7. A holding connection shall comprise the following parts or fittings—

- (a) a brass or gun-metal ferrule inserted in the main supply-pipe;
- (b) a galvanised iron communication-pipe from the ferrule to the meter;
- (c) a stop-cock and its surface-box;
- (d) a meter;
- (e) service-pipes from the stop-cock to the taps; and
- (f) taps.

8. (1) All the fittings referred to in rule 7 shall be exact duplicates of standard samples kept in the office of the Commissioners, and approved by them in meeting.

(2) All fittings shall be inspected and tested and stamped by an officer of the Municipality before being fixed.

(3) If any owner or occupier shall desire to adopt any fitting of a pattern different from the standard patterns, he must present such fitting for the approval of the Chairman, and any fitting so presented may, if considered satisfactory by the Chairman, be stamped, and samples thereof may be purchased and placed among the standard fittings.

9. The holding connection, when fitted in position, must be capable of standing a pressure of 100 feet, and no water shall be supplied until it has stood such a test applied by the Commissioners.

10. The size of the ferrule and the diameter of the communication-pipe referred to in clauses (a) and (b) of rule 7, and the number of taps shall be fixed in accordance with the annual valuation of the holdings as follows—

Annual valuation of holding not exceeding—	Number of taps.	Size of ferrule.	Diameter of communication- pipe.	Size of stop-cock.
Rs.		Inch.	Inch.	Inch.
150	2	$\frac{1}{2}$	$\frac{1}{2}$	$\frac{1}{2}$
450	2	$\frac{1}{2}$	$\frac{1}{2}$	$\frac{1}{2}$
1,500	3	$\frac{1}{2}$	$\frac{1}{2}$	$\frac{1}{2}$
3,000	3	$\frac{1}{2}$	$\frac{1}{2}$	$\frac{1}{2}$
6,000	4	$\frac{1}{2}$	1	$\frac{1}{2}$
Above 6,000	4	$\frac{1}{2}$	1	$\frac{1}{2}$

11. (1) On every communication-pipe a brass or gun-metal stop-cock having the same waterway as such pipe shall be placed as near as practicable to the point where that pipe enters the holding to be supplied.

(2) The stop-cock shall be built in a brick chamber provided with a cast-iron surface cover-box so designed that it can be locked, and the key of this box shall remain under the control of the Chairman.

(3) The stop-cock shall be capable of adjustment so that the supply to the holding may be regulated thereby.

12. (1) The meter shall be placed as near to the stop-cock as possible and in a position where it can be conveniently examined.

(2) The meter must be fixed in a brick chamber covered over with a cast-iron surface box of approved pattern.

13. Neither the stop-cock nor the meter must be placed in any private premises.

14. The Commissioners shall depute an authorised person to read every meter not less than once a quarter, and shall give notice to the occupier at least twenty-four hours before the reading is recorded. If he fails to attend, the inspection shall be made in his absence.

15. (1) Every owner or occupier of any holding in respect of which a connection has been made under these rules shall be entitled to a supply of—

(a) 3,000 gallons of water per quarter for each rupee, and

(b) a further proportionate number of gallons per quarter for every additional fraction of rupee,

paid by him quarterly as water-rate in respect of such holding.

(2) For all water in excess of the amount allowed under sub-rule (1), such owner or occupier shall be charged quarterly six annas for each 1,000 gallons or any fraction of it.

16. The Commissioners may cut off the connection between any water-works of the municipality and any holding to which water is supplied from such works, or may turn off such supply, in any of the following cases, namely:—

(a) if the holding is unoccupied;

(b) if the occupier refuses to admit any officer duly empowered in that behalf into the holding for the purpose of making any examination or inspection authorised under the provisions of Part VII of the Bengal Municipal Act, or under any by-law or rule framed under this Act, or prevents such officer from making such examination or inspection;

(c) if the owner or occupier of the holding touches or interferes with his meter in any way, or wilfully or negligently injures or damages it;

(d) if the owner or occupier of the holding wilfully or negligently permits waste of water in such volume as will, in the opinion of the Chairman, endanger the water-supply in the neighbourhood;

(e) if the owner or occupier of the holding shall refuse or neglect to pay any of the fees or charges imposed in accordance with these rules for a space of fourteen days after he has been served with a notice of demand for the same;

(f) if the owner or occupier of the holding constructs or fixes any cisterns, tanks, reservoirs, taps, pipes, pumps or any other works in connection with the water-supply not authorised by these rules;

(g) if the pipes, taps, ball-cocks, cisterns, or any other parts of the connection are, in the opinion of the Commissioners, in a leaking condition or a state of disrepair, after notice to repair such defect has been served:

Provided that such disconnection or turning off of water-supply shall not relieve any person from any liabilities which he may have incurred under these rules.

In the circumstances contemplated in clause (d) an officer authorised by the Commissioners in this behalf by a general order shall have the power to turn off the supply for a period not exceeding eight hours on his previously recording his reason in writing.

17. No tap shall be of larger size than the pipe to which it is attached and shall be of brass and of the pattern known as "Screw-down." Every tap shall be at least 8 feet above the surface of the ground beneath.

18. No cistern, tank or reservoir of any description which is intended to be supplied with water from the Municipal water-works shall be permitted to any holding except with the sanction of the Commissioners in meeting, and such sanction shall distinctly specify the dimensions and capacity of the cistern, tank or reservoir allowed. The inlet to every such cistern, tank and reservoir must be controlled by an efficient ball-cock so that the discharge thereinto is completely stopped when the cistern, tank or reservoir is full. Any taps fed from such cistern, tank or reservoir must be included in the number of taps allowed under rule 10.

19. No connection shall be permitted to any holding unless and until the owner and occupier makes effective provision to the satisfaction of the Commissioners for draining all waste water away.

The Sanitary Engineer, Bengal, in his letter No. 117, dated 12th January 1916, has guaranteed that the annual maintenance charge would not exceed Rs. 6,000 per annum on account of the improved pattern of machinery to be supplied by the contractors. RULES FOR THE PREPARATION, SUBMISSION AND EXECUTION OF PROJECTS FOR WATER-SUPPLY, SEWERAGE OR DRAINAGE BY LOCAL AUTHORITIES.

1. In these rules "local authority" means a District or Local Board, constituted under the provisions of the Bengal Local Self-Government Act, 1885.

Preparation of sketch of project.

- (2) Such sketch may be drawn up—

- (a) by the Sanitary Engineer at the request of the local authority; or
- (b) by the District Engineer; or
- (c) by any other engineer in the employ of the local authority or specially appointed for the purpose, subject in either case to the selection of such officer being approved of by the Sanitary Engineer; or
- (d) by any private firm of established reputation approved of by the Sanitary Engineer.

- (3) The Sanitary Engineer shall, in all cases, act as adviser of the local authority.

3. (1) When the sketch of the project has been drawn up under rule 2 and it is estimated to cost Rs. 10,000 or more, or, in the case of an estimate of less than Rs. 10,000, if the financial assistance of Government is desired, the local authority shall submit it to the Sanitary Board through the Commissioner of the Division, together with a statement wherein shall be shewn the amount of the funds available to meet the capital and recurring cost of the project either from current revenue or by way of loan or from any other source.

Submission of sketch, statement and application.

- (2) The Sanitary Board after considering the project shall forward it to Municipal Department of Government for administrative approval with such recommendations as they may think fit.

- (3) In the case of a scheme, the total estimated cost of which is less than Rs. 10,000 but more than Rs. 5,000, not being part of a larger scheme or one for which financial assistance from Government is required, the administrative approval of Government shall not be necessary; but the Sanitary Engineer must be consulted, and the scheme, with a copy of the Sanitary Engineer's opinion on it, must be submitted to the Commissioner of the Division for approval.

4. In order to obtain administrative approval of Government to any project, the local authority shall show—

(2) When any plans and estimates are prepared by any person or firm mentioned in clause (b) of sub-rule (1), they shall, while in course of preparation be subject to the examination and control of the Sanitary Engineer.

(3) With previous sanction of Government or the Commissioner, as the case may be, the local authority may arrange for the preparation of detailed plans and estimates before the administrative approval referred to in sub-rule (1) has been obtained and the provisions of sub-rule (1) and sub-rule (2) shall apply to such cases.

6. (1) The detailed plans and estimates shall, on completion, be forwarded in duplicate for final sanction to the Municipal Department of Government through the Commissioner of the Division and the Sanitary Board, or to the Commissioner of the Division, as the case may be. In the former case a full report shall be submitted on the financial aspects of the scheme and the state of public feeling in regard to it, with an application for loan in the form, prescribed in Government Circular No. 14 L.S.-G., dated the 25th June 1914, if a loan is required.

- (c) in all other cases—by the Sanitary Engineer.

9. Such works are to be considered as contribution works and are to be carried out by the Sanitary Engineer's Department under the rules regarding such works in paragraphs 861 to 865 of the Public Works Code, except that the provision made for establishment, etc., may be the percentages prescribed in sub-rule (1) of rule 28 of these rules, or such percentages as the Local Government may from time to time prescribe, and need not be the established percentages laid down for the Bengal Presidency.

(2) In addition to the above percentages, the local authority shall bear all law charges on behalf of Government in any suit brought by contractors or others in connection with the execution of any project entrusted to the Sanitary Engineer, in which Government or its officers may be joined as parties with the local authority or its representatives;

Provided that no charge will be paid by the local authority under this sub-rule, if, in the opinion of the Government, the suit is due to the malfeasance or negligence of the Sanitary Engineer or an officer subordinate to him.

10. (1) Where the cost of the projected work is estimated to amount ^{Conditions as to detailed engineering supervision.} to Rs. 10,000 or more, adequate provision for detailed engineering supervision shall be a condition precedent to the grant of final sanction by the Government.

(2) In the absence of special sanction to the contrary, one of the following arrangements shall be made:—

(3) In the cases of conditions mentioned in clauses (a) and (b), of sub-rule (2), work while in progress shall be subject to the inspection and control of the Sanitary Engineer.

13. When requested by the local authority the Sanitary Engineer shall prepare working or contract drawings, specifications, estimates, bills of quantities, forms of tender, or other documents or plans required for the execution of sanitary engineering works which have been duly sanctioned and which are to be let out by contract, as well as forms of advertisement inviting tenders for such works.

14. When drawings, specifications, bills of quantities, forms of tender, and other documents referred to in rule 13 are not prepared by the Sanitary Engineer, such drawings, specifications, etc., shall be submitted to the Sanitary Engineer for his approval in writing before tenders for the contract of such work are advertised for in the public press.

15. Every advertisement for tenders shall briefly describe the works required to be carried out, the place or places where plans and drawings can be seen, and copies of the specifications and forms of tender obtained, the deposit to be paid by any person making a tender, and the date and hour up to which tenders shall be received by the Chairman or the Vice-Chairman of the local authority.

16. The plans, drawings, specifications, bills of quantities, forms of tender and advertisements shall be formally approved by the local authority. Whenever the said authority desires to make any alteration in any one of such documents, the Sanitary Engineer shall be informed and his advice obtained with regard to such alteration.

17. All tenders shall be submitted in sealed covers addressed to the Chairman or the Vice-Chairman of the local authority, and such officer shall attend in person at the office of that authority or at any other place to which it may be directed that tenders shall be forwarded at the latest hour specified in the advertisement for the receipt thereof. Any tender received after such hour shall be out of order and shall not be accepted.

18. The Chairman or the Vice-Chairman of the local authority shall himself open the tenders, shall number each tender, and shall note thereon the exact time at which it was opened.

19. After the tenders have been opened, they shall be sent for check and scrutiny to the Sanitary Engineer, or, in cases where the District Engineer or any other Engineer in the employ of the local authority is entrusted with the work, to the District Engineer, who shall, in case of difficulty or uncertainty, consult the Sanitary Engineer.

20. The Sanitary Engineer, or the District Engineer in charge, as the case may be, shall, after checking and scrutinising the tenders, return them to the local authority with his remarks and recommendations.

21. The local authority shall thereafter consider the tenders and either accept one of them provisionally or, if necessary or desirable, refer the question to the Sanitary Engineer for further advice.

22. No tender shall be accepted which is not in order, is not fully priced out and is not in every way in accordance with the instructions contained in the advertisement inviting such tenders. Any alteration or reduction in a tender made by the person making the tender after the same has once been submitted shall (except in the case of a palpable arithmetical error) at once render the tender out of order.

23. If it is found that none of the tenders submitted is satisfactory, or if for any reason it is believed that the conditions of tendering have not been properly understood, so that fair tenders have not been received, all such tenders shall be discharged and fresh tenders shall be advertised for.

Discharge of tenders and advertisement for fresh tenders.

24. After a tender has been provisionally accepted, it shall be submitted to the Sanitary Engineer for final approval, together with all other tenders received for the work, and until such approval has been received no tender shall be finally accepted by the local authority:

Provisional acceptance and submission of a tender to the Sanitary Engineer.

Provided that, in case of difference of opinion between the local authority and the Sanitary Engineer in regard to the acceptance of a particular tender, the matter shall, if the local authority so desires, be referred to the Chief Engineer, Roads and Buildings, whose decision shall be final and binding on all parties.

25. Cases of works carried out under the complete supervision or control of the Sanitary Engineer in accordance with the condition mentioned in clause (c) of sub-rule (2) of rule 10 shall be governed by the rules contained in Chapter VIII of the Public Works Department Code. BUDGET.

	RULES.		RULES.
1. Preparation of Budget Estimate	22--33	3. Adequate working balance	35
2. Classification of transactions	34		

Preparation of Budget Estimate.

22. The Collector of the district shall, on or before the 15th August in each year, prepare and transmit to the District Board an estimate of the balance of the District Road Fund to be transferred to the credit of the District Fund during the financial year next ensuing under section 52, clause (1) of the Act.

23. As soon as the Collector has reason to believe that the receipts from cesses are likely to fall materially short of the original estimate supplied to the District Board under rule 22, he shall transmit to the District Board a revised estimate of the cess receipts in order that the District Board may revise its budget estimate accordingly under rule 35.

24. A budget estimate in Form No. 1 showing probable receipts and expenditure of the District Fund under all heads during the ensuing financial year, shall be prepared by the Finance Committee constituted under section 55 of the Act, and shall be laid before the District Board at a meeting to be held not later than the 15th December in each year. The budget shall be submitted to the Commissioner of the Division through the Magistrate not later than the 15th January and an abstract statement of the estimates by major heads shall be submitted by the Commissioner to the Accountant-General on the 15th February. A copy of the Public Works Department section of the budget shall be forwarded by the District Board not later than the 1st January in each year to the Inspector of Local Works, who shall send his observations thereon, if any, to the Commissioner by the 15th January at the latest.

25. The budget estimate shall set forth estimated receipts and expenditure under major, minor, and detailed heads of account, and the opening and closing balances.

(b) The expenditure chargeable to loans shall be distinguished from that chargeable to revenue and the balance shall be subdivided thus:—

	Ra.	A.	P.*
Opening balance of loan funds
Appropriation of loan funds
Closing balance of loan funds
Opening balance of revenue fund
Appropriation from revenue fund
Closing balance of revenue fund

26. The budget shall be accompanied—

- by a schedule in Form No. 2 for each major head except "45—Civil Works, Communications—repairs" in which shall be entered full details of the estimated receipts and expenditure under that head, working up to the total shown under that head in the budget estimate;
- by explanatory notes showing, wherever necessary, how the figures have been arrived at, and specially explaining any new and important item of receipt or expenditure; and
- when any new charge requires the sanction of superior authority, by a copy of the order of sanction.

NOTE.—In entering the details of receipts and expenditure in the schedule for each major head, the same forms and the same degree of particularity shall be observed as are prescribed for district budget estimates under the orders of Government, the Accountant-General, Bengal, or other competent authority. In preparing the schedule for public works under the control and administration of the District Board, the rules and forms prescribed for the budget estimates of District Road Committees under the Cess Act, 1880 (Bengal Act IX of 1880), shall be observed.

27. In preparing the budget, what is expected to be paid (under proper sanction) during the year shall be provided for, not the liability likely to be incurred or falling due within the year.

28. For fixed charges, the explanatory notes shall show the full sanctioned scale, the number of employes, rate of pay, etc.

29. The District Board may at any time transfer grants from one minor head to another minor head subordinate to the same major head.

30. Transfers from one major head to another shall not be made without the previous sanction of the Commissioner of the Division.

31. Application for sanction for reappropriations whether submitted to a meeting of the Board or to the Commissioner shall be in Form No. 8.

32. If at any time during the year the District Board has reason to believe that the budget under any head is likely to be exceeded, and that the excess cannot be met by a reduction under some other head, a supplementary budget estimate shall be prepared with the least possible delay and submitted through the Magistrate for the orders of the Commissioner in the manner prescribed in sections 47 to 49 of the Act.

33. If the Board has reason to suppose the receipts under any head are likely to fall materially short of the budget estimate, a revised budget estimate shall be prepared with the least possible delay, and submitted as above for the orders of the Commissioner.

Classification of transactions.

34. No change shall be made in the prescribed major and minor heads of account, unless authority for an alteration is communicated to the District Board by the Accountant-General, Bengal. (If, therefore, any additions or alterations are thought to be required, the question shall at once be referred to the Accountant-General, who will, if necessary, submit the question for the orders of Government.) If, for administrative purposes, it is found convenient to subdivide the detailed heads in the abstract registers, there is no objection to this being done; but all statements and returns shall be compiled according to the headings here prescribed.

Adequate Working Balance.

35. The District Board shall never, except with the previous sanction of the Local Government, exhaust or exceed its balance in the Treasury; and the budget estimates shall be framed so as to provide for an adequate working balance throughout the year and for an adequate closing balance.

CHAPTER III.

RULES.		RULES.	
1. Miscellaneous Revenue for which there is a fixed demand.		4. Bungalow fees	58
(a) Revenue leased out	56—47	5. Receipts on account of fruit trees	59
(b) Miscellaneous Revenue managed departmentally	48—52	6. School fees	60—61
2. Miscellaneous demands	53	7. Subscriptions and Donations	62
3. Bills and receipts	54—57	8. Contributions	63

Miscellaneous Revenue for which there is a fixed demand.

Revenue leased out.

36. When the collection of revenue is leased out for fixed amounts, the recoveries shall be watched by means of the Demand and Collection Register of rents in Form No. 4.

NOTE.—The following sources of revenue are usually leased out:—

- (1) Pound rents.
- (2) Ferry rents.
- (3) Rent of buildings and lands.
- (4) Produce of lands and gardens.
- (5) Tolls on bridges.
- (6) Rent of fisheries.

37. A separate page or sets of pages of the register shall be set apart for each of the above kinds of revenue for which there is a fixed monthly, quarterly, half-yearly or annual demand.

38. As, however, the sources of revenue and the circumstances are varied, the form may be modified with the approval of the Accountant-General, Local Audit Department, to meet local requirements.

39. The register in Form No. 4 shall be opened by bringing forward all arrears due from farmers whose leases have terminated and have not been renewed. The entries shall be made serially, one below the other, grouped according to the years for which the arrears are due, so that the total demand and realizations can be ascertained by totalling the vertical columns. In the case of such expired leases columns 3, 4, 7, 8 and 10 and 11 need not be filled in.

40. Below the arrear demands due by defaulters shall be entered the demands for current leases. These shall be grouped so that all the pounds or ferries subject to the control of each Local Board and Union Committee come together, and sufficient space shall be left after each group to insert any fresh leases granted during the year. A grand total shall, however, be made of the whole demand, arrears as well as current, and of the realizations of each month. The entries in columns 1 to 8 and 10 and 11 will be filled in from the kabuliyat, and those in column 9 from the previous year's account if the same lessee is in possession of the property. Columns 7 and 8 shall show if the instalments are to be paid monthly or quarterly, or shall show the due dates for payment, i.e., first day of each month or quarter, etc.

41. The security deposit shall be credited direct to "Rent in the cash-book as it is practically an advance payment of rent. In the register of rents it shall be entered in the collection column of the month in which it is realized. The first March column (column 14) is provided for security deposits on current year's leases paid in March of the financial year.

42. On the expiry of the lease, the amount paid as security deposit will be entered in red ink in the collection columns for the last month of the lease and the outstanding balance reduced thereby.

43. Rents received shall be entered in the collection columns of the month in which they are received.

44. The totals of each monthly collection column shall be compared by the Vice-Chairman with the abstract register of receipts and he shall place his initials at the foot of each column. The total of the final March column must be added to the next year's first March column to effect the agreement.

45. When a lease is cancelled for any reason and the pound, ferry or other property resold the demand up to date shall be worked out and compared with the collections up to date.

46. At the close of the year the remissions shall be sanctioned by the District Board at a meeting.

47. If any pounds, ferries or other property have been placed in charge of Local Boards, duplicates of these registers shall be kept by the latter in the same way as the District Board, and these shall be prepared and checked in accordance with the instructions in rules 39 to 45. Directly the settlement for the year has been made by the Local Board, a copy of the sale list, accompanied by the kabuliyats in original, shall be forwarded to the District Board. At the close of each quarter a return in Form No. 5 shall be submitted to the District Board by each Local Board. In this form the arrears due on expired leases shall be grouped separately by the year and below these shall be entered the current leases. These returns will inform the District Board of the action taken in regard to arrears. The details of the demands and collections shall also be carefully compared with those recorded in the register maintained by the District Board, and any discrepancies shall be immediately reconciled.

Miscellaneous Revenue managed departmentally.

48. When the collection of revenue is managed departmentally, i.e., collected through District Board subordinates, instead of being leased out to renters the collection shall be effected by means of machine-numbered receipt tickets in Form No. 6.

49. The tickets shall be bound in books of 25, 50 or 100 as convenient and shall bear consecutive machine numbers. Before issue to the collecting sircars, the tickets shall be stamped with the common seal of the District Board in the presence of the Vice-Chairman. The stock of tickets shall be

kept in the custody of the Vice-Chairman and a stock account of their receipts, issues, and balances shall be kept by the accountant in Form No. 7 and the collecting sircars shall give their receipts in the proper column for tickets made over to them periodically.

50. The collecting sircars shall without fail grant a ticket to the person who pays toll or other dues. The progressive total of the sums received shall be kept on the counterfoil of each ticket in the place provided at the foot, as each ticket is issued. An inspecting officer shall see that these totals are taken regularly as directed in this rule, and shall initial the pages which he checks.

51. At such times as may be fixed by the Board but at least once a fortnight and oftener when the amount in hand is nearly equal to the collecting sircar's security, he shall remit his collections to the treasury with a chalan, Form No. 8, in triplicate. The foil of the chalan that is returned, shall be pasted in the book of receipt tickets as evidence of the remittance having been made. The progressive total on the counterfoil shall run from the date of last credit to the date of next credit, and the amount remitted shall agree with the progressive total made on the last counterfoil on the day of remittance.

52. At least once a quarter and at shorter intervals as often as possible, the collecting sircar's accounts shall be examined on the spot by the secretary or a member of the Board or other officer appointed by the Board on this behalf. The inspecting officer shall review and check the totals of at least 2 per cent of the pages of the receipt ticket book, including those that he checks. He shall also compare the totals of the books with the amounts remitted to the treasury as shown by the chalans and with the cash in the hands of the collecting sircar. The check shall be made from the time of the last examination under this rule, and a report of the results shall be forwarded to the Board.

Miscellaneous Demands.

53. (1) For demands not otherwise provided for in these rules, the Board shall keep up a miscellaneous demand register in Form No. 9.

(2) Columns 1 to 7 of the register shall be posted when the bills are signed and the entries regarding payment shall be made in columns 8 to 12.

(3) The amount shall then be credited in the treasury in the usual way (see rule 149).

Bills and Receipts.

54. Bills shall be prepared, where necessary, in Form No. 10 and shall be entered in the appropriate column of the miscellaneous demand register, Form No. 9, and their satisfaction noted in the proper column. No other receipts need be given in such cases.

55. For all money received by the Board under the rules in this chapter and in all other cases in which no receipt form has been prescribed in the rules, a receipt in Form No. 11 shall be given by the Vice-Chairman or the Secretary. The total amount received shall be written in words both on the receipt itself and on the counterfoil.

56. The bill and receipt forms shall be bound in counterfoil books. Each book shall contain 100 forms and no book shall be brought into use until all the foils and counterfoils have been consecutively numbered. The numbers shall, if possible, be printed.

57. The receipt and issue of all forms shall be recorded in a stock book (Form No. 7) and on no account shall loose unnumbered forms be kept in the office.

Bungalow Fees.

58. Travellers' bungalow fees are levied according to sanctioned scales and the rules issued in connection therewith, and they will be checked by reference to the entries made by the travellers themselves in the register Form No. 12 maintained in the bungalow concerned.

Receipts on account of fruit trees.

59. In order to enable a proper check to be exercised over the realizations of avenue produce, a register in Form No. 13 should be maintained in the Engineer's office showing the total number of fruit-bearing trees of each

kind in each mile of a road separately. This register shall be corrected from time to time as new trees are grown and dead trees are removed. At the commencement of each year, the overseers or sub-overseers shall conduct the sales of these trees and forward sale lists to the Engineer for approval. The Engineer after approving the sale lists shall send them to the Board's office for note in the Miscellaneous Demand Register to watch recoveries.

School Fees.

60. The school fees from the Board's schools shall be realized by the Head Masters and credited to the treasury direct. When it is found inconvenient to remit the sums into the treasury, they may be allowed to be retained in part payment of the expenses of the school. In the latter case, the total sum realized during the month shall be deducted from the total of the establishment pay bill for the month, and the net amount shall be claimed.

61. The Head Master shall submit on the 1st of every month to the Board's office a statement of the amounts realized during the last month and the amount outstanding at the end of the month, in Form No. 14. The Board's office shall check the statement and the amounts realized with the amounts credited in the treasury or with the amounts deducted from the monthly establishment pay bill. (See rules 212 to 214.)

Subscriptions and Donations.

62. Subscriptions and donations for special purposes shall be recorded in Form No. 15. These subscriptions shall not be appropriated for any other purposes; and to prevent this, a separate account shall be kept in Form No. 42. (See rule 148.)

Contributions.

63. The realization of amounts due on account of contributions shall be watched by means of the Miscellaneous Demand Register (Form No. 9). As soon as the demand can be ascertained and the amount becomes due, a bill shall be prepared by the Board in Form No. 10 and accounted for in the way laid down in rules 53 and 54.

67. To the first bill in which a periodical increment is drawn by any officer a certificate in Form No. 18 shall be appended.

68. The pay of all temporary employes who are entertained under sanction shall be billed for separately in the same form, the sanction being quoted.

69. The last payment of an employe's salary shall never be made until it has been ascertained that there are no demands outstanding against him. A certificate to this effect signed by the Chairman or Vice-Chairman shall be attached to each such bill.

Provident Fund deductions.

70. The net amount payable to the payees shall be drawn in one cheque. For the amount of Provident Fund deductions and contributions a separate voucher shall be drawn up including, if necessary, the deductions and contributions on several bills and showing merely the total deductions and contributions on account of each salary bill. The amount of this voucher shall be paid in cash or by cheque as the case may be in the Post Office Savings Bank not later than the 4th of each month.

Arrear bills.

71. Arrear pay shall not be drawn in the ordinary monthly bill, but in a separate bill, with a quotation of the bill from which the charge was omitted or withheld or on which it was refunded by deduction, or of any special order granting a new allowance. Such bills may be presented at any time and may include as many items as are necessary, but they shall be supported by a certificate from the head of the office that the amount was not paid before.

72. When the bills are paid the number and date of the voucher shall be noted on the original bill from which the charge was withheld or omitted or in which it was refunded, against the item concerned in order to prevent a second claim from being entertained.

Distribution of Salaries.

73. Every District Board employe shall give a receipt with date in the appropriate column on the Form No. 16 for the sum paid to him and shall in the case of sums exceeding Rs. 20, affix a receipt stamp before signing. The cost of such receipt stamp must be borne by the person who received the money and not by the District Board. Employes unable to write shall make their mark and shall be paid in the presence of the Vice-Chairman or some responsible officer, who shall record a certificate to that effect.

74. The drawer of the bill is personally responsible for every salary drawn on a bill signed by him until he has paid it to the persons entitled to receive it, and has had the acquittance roll signed and if necessary, stamped by the payee. If the payee does not present himself before the end of the month, the amount drawn for him shall be refunded by short drawal in the next bill; his salary can be drawn anew under rule 71 when he presents himself to receive it. Pay shall not in any circumstances be placed in deposit.

75. The drawer of the bill shall not readjust the salaries of the establishment by giving one officer more and another less, than the sanctioned pay of his post, nor shall he distribute the pay of an absentee otherwise than as provided by any general or special orders of the Board.

Records of Service.

76. (1) A service-book in Form No. 19, printed in English and the Vernacular, shall be supplied, at his own cost, to every employe holding a substantive appointment on the permanent establishment of a District Board. It shall be kept in the custody of the Chairman, whose signature as well as that of the employe on the first page shall be attested every five years.

(2) The service-book is a contemporary record of the employe's official life, including leave of every description, every period of suspension from employment, and every other interruption of service, with full details of its duration. Every entry relating thereto shall be written across the page and attested by the Chairman or Vice-Chairman, or the Secretary.

77. As regards the District Engineer, the record of his services will be kept by the Chairman in a register similar to Form No. 92 prescribed in article 784 of the Civil Account Code (District Board's Form No. 20).

78. The Chairman or Vice-Chairman is primarily responsible that every necessary entry is made, especially in regard to leave or suspension, but it is also the duty of each employé to remind the Chairman, Vice-Chairman, or Secretary, when any entry is necessary and to see that his own service-book is properly written up and attested. It should be carefully explained to each employé that, unless he does so, there may be a difficulty hereafter in verifying his service when his claim to pension shall come to be investigated and considered. Service-books shall be introduced and kept up, whether rules for the grant of pensions and gratuities have been framed or not.

Annual Establishment Return.

79. At the time of preparing the pay bill for March in each year, a detailed statement of the permanent pensionable establishment existing on the 1st April shall be prepared in Form No. 21 and transmitted to the Accountant-General direct not later than the 15th May. In preparing the statement the following instructions shall be carefully observed:—

- (a) The name, designation, and pay of every officer, clerk, or menial servant holding a permanent pensionable appointment, whether on duty or absent on leave or deputation, or under suspension, shall be distinctly shown.
- (b) The date of birth, of appointment to present post, and of promotion to present pay of each person should be entered in the appropriate columns of the statement; the date of the birth by Christian era shall be given, and, if the exact date is not known, the approximate date or year shall be stated.
- (c) The name of any person acting in an appointment, as well as the acting allowance paid to him shall be shown in the column "Name of incumbent" beneath the name of the absentee for whom he is officiating.
- (d) If the acting incumbent holds a permanent appointment upon another establishment, the fact shall be stated.
- (e) A detailed statement in Form No. 22 shall be given at the foot of the original return, Form No. 21 showing new names of officers which are not found in the return of the previous year, and when these new names include those of persons who have entered the service of the District Board for the first time, the particulars of their previous service and the rules or orders under which their service qualifies for pension shall be given. Columns are also provided in Form No. 22 for information required in regard to the names of officers which appeared in Form No. 21 of the previous year, but are now omitted, as also regarding officers who have been on leave, other than privilege leave, or under suspension, during the previous year. In the case of any who have been under suspension, a note is required stating whether it has been expressly declared that the period of suspension shall count as service qualifying for pension.
- (f) If any person on the establishment is a Government pensioner, or is not the servant of the District Board solely, the fact shall be noted in the statement. If he be an officer transferred from the pensionable service of Government, for whose pension contribution is paid, a note shall be entered against his name to the effect "Contribution paid to Government for pension."

When completed in accordance with the preceding instructions, the statement shall be carefully checked with the service-books, as it will be the authority by which hereafter pension claims will be tested by the Accountant-General.

Pensions and Gratuities.

Application for pension or gratuity where rules for the grant of the same have been framed and sanctioned.

80. When an officer applies for an invalid pension or gratuity, he shall be referred; if his age be less than 60 years, to the Medical Officer in charge

of the civil station of the district for medical examination. After he has been declared by the Medical Officer to be unfit for further service, he shall not be retained in active service, pending a decision on his application for pension. Service after the date of the medical certificate does not count for pension.

81. After the medical certificate of incapacity for further service has been received, an application for pension or gratuity in Form No. 23 shall be drawn up, and the applicant's service detailed in page 2 of the form verified from office records, and the result of the verification noted in the column provided for the purpose.

82. In the case of pensions or gratuities other than invalid, the applicant's services shall be verified, and the form of application filled up in the same way as in the case of an invalid pension, when the application for pension or gratuity is made by the applicant.

83. The Chairman shall certify on the application whether the character, conduct, and past services of the applicant are such as to entitle him to the favourable consideration of the District Board. If the application is for pension on the superior scale, he shall enter all periods of leave, suspension, etc., which are not reckoned as service. He shall also record his opinion whether the service claimed has been established and shall be admitted or not.

84. The application in Form No. 23, with the applicant's service-book, his last pay-certificate, the medical certificate of incapacity for further service (if the application is for an invalid pension), and the documents relied upon for the verification of the service claimed, will then be forwarded to the Accountant-General, who will return the papers with a certificate as to whether the service claimed has been duly proved, and whether the pension applied for is admissible under the rules.

85. The application, with the Accountant-General's certificate and the other papers, will next be laid before the members of the District Board in meeting for sanction.

Payment of pensions and gratuities granted under sanctioned rules.

86. When the payment of a pension or gratuity has been sanctioned by the District Board, the amount, if it be a gratuity, may be paid in a single sum; but if it be pension, it shall ordinarily be paid monthly to the pensioner in person at the office of the District Board on an authority issued in Form No. 24.

87. A pensioner not residing in the district in which he was employed may draw his pension by agent without appearing in person on production of the certificates required by the Civil Service Regulations, article 946. In such a case the District Board shall obtain every year some proof independent of the certificate, through the police or the officers of the Board of the district in which the pensioner resides, or otherwise, that he is actually alive. The District Board may pay a pensioner by postal money-order in any case in which hardship would arise if the pensioner were required to attend in person at the District Fund office:

Provided:—

- (1) that the pensioner requests the Board in writing to remit the money in this manner;
- (2) that the remittance is made at the sole risk of the pensioner and at his cost; and
- (3) that before the money is remitted the Board is furnished with a life-certificate in respect of the month for which the money is to be remitted, such certificate being signed by a Magistrate, or by the Chairman or a member of the District Board within the limits of whose jurisdiction the pensioner is living, or by some person exercising the powers of a Magistrate under the Code of Criminal Procedure or by any Registrar or Sub-Registrar under the Indian Registration Act, 1908, or by any pensioned officer who, before retirement, exercised the powers of a Magistrate, or by a Chaplain, or by any gazetted officer of Government or any person holding a Government title.

If an officer dies before actually retiring, or being discharged, his heirs have no claim to anything.

NOTE.—Pension can be drawn for the day of the pensioner's death; the hour at which death takes place has no effect on the claim.

92. In such cases personal securities shall be obtained until the full amounts of the cash securities required have been recovered, the solvency of the sureties being ascertained from time to time.

95. In the case of an employe affected by rule 94, a security bond in Form No. 26 or No. 27 shall be executed. All such bonds shall be kept under lock and key in the custody of the Chairman or Vice-Chairman.

157. The District Fund shall be lodged with the Collector of the district, who shall keep a separate account thereof. Donations which private persons give to the District Board for objects of legitimate expenditure on condition

that they are to be placed in fixed deposit in a bank or invested in securities, may be so placed in deposit or invested by the District Board.

Payment into the Treasury.

158. (1) All sums due by any person to the District Board, and all moneys collected by authorized servants of the Board, as well as rents due by pound and ferry-farmers, shall be sent direct to the treasury to be credited to the District Fund and shall not be sent through the office of the District Board. Moneys collected by servants of the Board shall be remitted in full to the treasury, and no portion thereof may be appropriated towards expenditure except in certain cases of school fees and fines referred to in rule 212.

(2) If in any case money is tendered at the office of the Board, the person tendering it shall be directed to take it to the treasury, where it will be received and credited to the District Fund.

NOTE.—(See rule 4.)

159. (1) All money paid into the treasury otherwise than by money-order to the credit of the District Fund, whether by servants of the District Board or others, shall be accompanied by a chalan in Form No. 8.

(2) This chalan shall be in triplicate, having the words "Original," "Duplicate" and "Triplicate" printed or written in red on the first, second and third parts, respectively. The first part shall be retained by the treasury office, the second part shall be returned on the same day to the office of the District Board, and the third part shall be delivered to the person paying in the money:

Provided that payments into the treasury of the rents of pounds and ferries which are administered by Local Boards shall be accompanied by chalans in quadruplicate, and the fourth part shall be sent by the treasury to the office of the Local Board.

Road and Public Works Cess.

160. On the last working day of each month the Collector shall transfer to the credit of the District Fund, and shall enter in the pass-book, the amounts of the following items calculated in accordance with the provisions in the Bengal Treasury Manual, Chapter XVI, paragraph 300—

- (a) Road cess on lands.
- (b) Public works cess.
- (c) Cess on mines and railways.
- (d) Interest on arrear collections of road and public works cess.
- (e) Miscellaneous.
- (f) Recoveries on account of cost of collection of arrear cess.

Grants from Provincial Revenues.

161. When a grant is made to the District Fund from Provincial revenues, the Accountant-General shall instruct the Treasury Officer to credit the amount of the grant to the District Fund, and send the Chairman a copy of his letter. Recurring grants are payable to the District Fund at the beginning of each year. The credit shall be made by book transfer; no bill or cheque shall be drawn, and no money shall be paid out of the Treasury.

Pass-book.

162. All moneys remitted to the treasury to the credit of the District Board, and all payments made by the treasury on cheques or otherwise on account of the District Board, shall be entered in a pass-book (Form No. 44); the pass-book shall remain in the custody of the Chairman or Vice-Chairman and it shall be sent to the treasury on the tenth and also on the last working day of every month and on any other day on which the District Board may require the posting to be done. On receipt of the pass-book by the treasury officials, the receipts and payments up to date, and credits referred to in rules 160 and 161 shall be entered therein, and when the book is received on the last working day of the month, the account shall be balanced and signed by the Treasury Officer, the amount being entered in words as well as figures. The book shall be returned to the office of the District Board as soon as the entries prescribed in this rule have been made in it, i.e., on the day of receipt or the next open day at latest.

163. The pass-book will be supplied by the treasury. It is not a District Fund-account-book, but is simply a copy of the account kept in the treasury of the money paid into the credit of, and disbursed on account of, the District Board, and must therefore always be written up *only by the Government Treasury Department* by whom the original account is kept.

164. No entries or marks shall, under any circumstances, be made in the pass-book by any one connected with the District Board's office.

165. The Chairman shall examine this pass-book from time to time, and shall immediately call the attention of the Treasury Officer to any discrepancy that may appear between the credits and debits shown in the pass-book and those shown in the accounts of the District Board's office.

Balance Certificate.

166. The Treasury Officer shall supply the Chairman, immediately after the close of each month, with a balance certificate in Form No. 45.

167. This certificate shall be sent by the District Board to the Accountant-General, Bengal, attached to the audit certificate (Form No. 59).

Overdrawal of Balance.

168. No Local Fund is allowed to overdraw the balance at its credit without the special sanction of the Local Government. A deficit, may, however, if necessary, be allowed to the extent to which the road and public works cesses can be ascertained to have been actually credited in the treasury subsequent to the close of the previous month's account *minus* the cost of collection up to date.

169. If the Local Government sanction an overdraft when, owing to widespread distress, the instalments of any local cess creditable to District Boards are suspended or remitted and the income of the District Boards undergoes a sudden diminution, these overdrafts should be recouped when the suspended cess is realized. Whenever Government authorize advances of money to a District Fund, the Board will be allowed to overdraw its account at the treasury to the extent of the authorized advance and special instructions on the subject will be issued by the Accountant-General on each occasion. No entry will be made in the pass-book on receipt of these instructions, which will merely be noted for guidance by the Treasury Officer and will indicate the limit beyond which drafts shall not be permitted.

Transactions with the Post-office.

170. When money is remitted to a District Board by means of post-office money-orders or when the amounts of money-orders issued on the requisition of a District or Local Board are returned unpaid they will, in accordance with the post-office rules on the subject, be sent by the post-office of payment direct to the Treasury Officer for adjustment of the amount by book transfer to the credit of the District Fund. An advice-list with coupons and acknowledgments attached will be sent on the same day by the Treasury Officer to the District or Local Board's office, as the case may be, in token of the adjustment having been made. The Chairman shall despatch the acknowledgments to the remitters of the money-order. The Chairman of the Local Board shall also forward the original coupons with a copy of the advice-list to the office of the District Board, retaining the original advice-list in his own office and shall furnish full details of all items of unpaid money-orders which will be entered in red ink.

Money-orders.

171. When writing out money-orders in payment of a bill the number of the cheque and the serial number of the item in the bill shall be written on the acknowledgment portion. When received back the acknowledgment shall be carefully filed, in serial order with the voucher. Wanting acknowledgments shall be called for after a month from the Postal Department.

Register of undelivered Money-orders.

172. (1) A register in Form No. 46 shall be opened for money-orders which the Postal Department refunds to the District Board owing to the payee not being found.

(2) The register will serve the double purpose of providing a means of watching that these refunds are brought to credit, and in case of the payee afterwards making application for the money, of ascertaining whether the sum is due from the District Board or from the Postal authorities.

Payment of Claims.

173. A Board shall pay promptly every claim against its fund that is clearly due. Every contractor shall, so far as possible, be paid on monthly bills, and every labourer employed direct by the Board or an official of the Board shall be paid daily or weekly as he may desire. But no money shall be drawn before it is actually required for payment; and no undue delay shall occur in the disposal of money drawn.

174. (1) Every bill or other claim for payment from the District Fund shall be presented in the first instance to the accountant, who shall check and examine it, and, if it be found correct and in order shall submit it for orders to the Chairman. If payment of the bill so presented is to be made, an order for the payment shall be endorsed upon it. The order for payment shall run as follows:—"Pay Rupees only (Rs.)," the amount being written in words as well as in figures, and shall be signed by the Chairman.

(2) The Accountant shall also note on it the classification of the charges according to the heads laid down in Form I, or in such greater detail as may be necessary for entry in the cash-book after payment.

175. All payments exceeding Rs. 20 shall be made by cheque; claims for smaller sums shall be paid in cash from the permanent advance.

Note.—See rules 7, 26 and 103 to 107 for recoupment of permanent advance.

176. In passing for payment bills in respect of public works charges which have been already passed by the District Engineer, the District Board's office shall compare the rates allowed by the District Engineer with those sanctioned in the agreement, and, in cases in which there is no agreement, shall compare the bills with the sanctioned estimate.

177. A register of work bills shall be kept in Form No. 47 and all bills passed for payment shall be entered therein. From this register the Board's office must check the allotment and balance available for each work and the District Engineer's accountant must also refer to it in order to verify his register of works.

178. (1) If the bill is to be paid out of the imprest, the chairman shall sign the pay order on the bill and make it over to the accountant for payment. The accountant shall, after payment, stamp the voucher with the words "paid in cash" in conspicuous type. This shall be attached as a sub-voucher to the next contingent bill (Form No. 28). If the bill is to be paid by cheque, it shall be made over to the accountant. The cheque shall be written out by the accountant and the bill stamped "Paid by cheque No. dated " in conspicuous type. Both the bill and the cheque shall then be placed before the Chairman who shall sign the cheque and initial (with date) the "paid" endorsement on the bill in token of having signed the cheque for the bill.

(2) The amount of the cheque shall be entered in the cash-book as soon as the cheque is signed.

179. Every payment from the District Fund shall be supported by a voucher in a proper form duly signed and receipted by the payee himself and stamped, if necessary. If payment is made to another person duly authorized by the payee to receive payment on his behalf the signatures of both are necessary. A receipt signed by another person for the creditor will be invalid.

180. (1) Payments to illiterate persons shall be attested by a competent witness in addition to the paying officer.

(2) When the payee signs in vernacular the amount acknowledged shall be noted by him in the same vernacular.

Filing of Vouchers.

181. (1) Bills which have been paid by cheque shall be divided into the following classes, namely, (1) salary and establishment bills, and (2) other

bills. Each class of bills shall be pasted in a separate guard file and shall be consecutively numbered in order of payment:

Provided that sub-vouchers, which have been paid in cash out of the permanent advance, shall be separately filed, together with the recoupment voucher covering them.

(2) The following memorandum instead of this voucher shall be pasted into the guard-book for bills other than salary and establishment bills.

Memorandum.

Voucher No. , dated , for Rs. in recoupment of the Chairman's or other imprest-holder's permanent advance, will be found in the separate file.

Cash-book.

182. The District Fund cash-book shall be kept in Form No. 43.

The receipt entries in this book shall be made day by day as follows:—

- (1) In the case of money remitted to the treasury (otherwise than by money-orders) for credit to the District Fund under rule 158, from the duplicate chalang mentioned in rule 159.
- (2) In the case of money-orders, from the coupons attached to the advice list received from the Treasury Officer. (*Vide* rule 170.)
- (3) In the case of the book adjustments specified in rule 161, from the copies of the Accountant-General's letter received under that rule.
- (4) In the case of road and public works cesses mentioned in rule 160, from the pass book.

Expenditure shall be entered from the details of vouchers day by day as cheques are signed. (*See* also rule 178(2)).

NOTE.—In the case of a cheque which has to be signed by two persons under rule 188 the date on which it is first signed by either of them shall be taken to be the date of the cheque.

Closing of the Cash-book.

183. The cash-book shall be closed and balanced on the last working day of each month and shall be signed by the Chairman after comparison with the pass-book. In the event of any cheques issued during a month remaining uncashed by the treasury at the close of the month, there will necessarily be a difference between the balance brought out in the cash-book and that of the treasury pass-book and of the certificate issued by the Treasury Officer under rule 166. This difference shall be explained by a note in the last page of the cash-book for the month in the following manner:—

Cheques.

184. Cheques drawn on a treasury shall be in form No. 48. Cheque-books containing 100 cheques each will be provided by the officer in charge of the treasury. Each book shall bear a number which shall be repeated upon each cheque contained in it, together with the consecutive number of each cheque form and the Drawing Officer shall notify to the treasury upon which he draws the number of the cheque-book which he from time to time brings into use. Outside the book there shall be instructions to keep it under lock

and key in the personal custody of the Drawing Officer, who, when relieved, shall take a receipt for the correct number of cheques made over to the relieving officer, a specimen of whose signature shall at the same time be forwarded to the treasury concerned.

185. (1) On receipt of a cheque-book from the treasury, the officer to whom the duty of signing cheques is allotted shall count the cheques, and shall record on the back of the cheque book that "this cheque book contains forms."

(2) The cheque-book shall remain in the custody of the officer who usually signs the cheque.

186. The cheque-book in use may be made over to the accountant whenever required, but it shall be returned before the office is closed for the day and shall on no account be left in the entire charge of any subordinate.

187. The officer in whose custody it is to remain shall satisfy himself periodically that all unused cheques are in the book and that none have been surreptitiously extracted.

188. Cheques for sums not exceeding Rs. 500 shall be signed by the Vice-Chairman or by the Chairman, or if both be absent, by a member of the Finance Committee. Cheques for sums exceeding Rs. 500 shall be signed both by the Chairman and the Vice-Chairman, and if either of them be absent, such cheques shall be signed by the Chairman or Vice-Chairman present and another member of the Finance Committee.

189. Whenever necessary, and if convenient to the treasury, cheques issued by the District Board may be encased at the district treasury for payment at the sub-treasury. In such cases the payees' receipt shall be obtained through the Local Board which shall take it before delivery of the cheque to him.

190. No cheque shall be signed unless required for immediate delivery to the person to whom the money is to be paid, nor until the bill, which it will discharge, has been presented in a complete form, examined and passed for payment in accordance with rules 174(1) and 178. The practice of retaining signed cheques in the office shall not be permitted.

191. Every cheque shall be drawn in English in favour of the person to whom the money is actually due. Payment shall not be made to any other person except on production of a written authority from the creditor to receive it on his behalf:

Provided that this rule shall not apply to—

- (a) Cheques issued for a sum of money distributable as pay or wages among a number of District Board employés.
- (b) Cheques for recoupments of permanent advance.
- (c) Cheques for payments of money by Remittance Transfer Receipts (article 143A, Civil Account Code, Volume I).
- (d) Cheques for payment of money in places where there are treasuries but under the rules Remittance Transfer Receipts are not permissible (pay allowance, etc.) and where there are no treasuries. In such cases the money shall be remitted by money-orders and the cheques shall be drawn in the name of the Post Master.
- (e) Cheques for payment of money to Government. If the money is accounted for by a special department of Government, such as the Income-tax, the Land Acquisition Department, etc., the cheques shall be drawn in favour of the officer-in-charge of the department concerned. But in other cases the cheque shall be drawn in the name of the Treasury Officer and forwarded to him for credit to Government.

NOTE.—Cheques in favour of the District Engineer shall be "to order."

192. The amount of every cheque shall be written in words as well as in figures, both on the cheque itself and on the counterfoil, and the counterfoil shall be initialled by the person or persons who sign the cheque. The word "only" shall always be inserted after the amount written in words in the body of the cheque.

193. Every cheque drawn for a sum, whether exceeding Rs. 20 or not, shall bear a receipt stamp of the value of one anna, and such receipt stamp shall be affixed before the cheque is signed.

Cancellation of Cheques.

194. When a signed cheque is cancelled, it shall be effaced or stamped "cancelled" by the drawer of the cheque, and shall be destroyed as soon as the accounts for the month in which the cheque was drawn have been audited by the Finance Committee.

195. The fact of cancellation shall be noted in red ink under the initials of the drawer of the cheque upon the counterfoil and also across the passing order which has been effaced upon the voucher.

196. A cheque remaining unpaid from any cause for twelve months from the date of its issue shall, however, be cancelled, and the amount shall be written back in the manner prescribed in rule 207.

Cheques lapsed or lost.

197. Cheques are current for three months only. After the expiration of that period, payment will be refused at the treasury, and the person in whose favour the cheque was drawn will, therefore, have to bring it back to be re-dated. No fresh cheque should be issued; the lapsed cheque shall simply be re-dated and the alteration initialled by the Chairman or official whose duty it would be to sign the cheque under rule. A note of the fact of re-dating shall be entered in the cash-book against the original transaction. The alteration will in no way affect the accounts, and no further entries shall be made.

198. When a cheque is reported as lost during the period of its currency the Chairman shall forward to the Treasury Officer concerned a certificate in the following form for signature:—

The 19 .

199. On receipt from the Treasury Officer of the certificate signed by him, the Chairman will draw a new cheque in lieu of it, the fact of the loss and the number and date of the new cheque will be recorded on the counterfoil of the old cheque, and the number and date of the old cheque that is lost will be recorded on the counterfoil of the new one. The fact of the new cheque having been issued will be entered on the date of issue in red ink parenthetically in the cash-book but not in the column for payment. A note will also be made against the original entry in the cash-book.

Correction of the Cash-book and Abstract Registers when Cheques are cancelled.

200. If the cheque is cancelled in the month of issue before the cash-book is closed and before the abstract register has been posted, all that is necessary is to strike out the entry in red ink under the initials of the Chairman. If, however, the abstract register has been posted and the correction is made in the same year, the cheque shall be removed from the list of outstanding cheques, and the amount credited in the cash-book as a miscellaneous receipt, "deduct" entries being at the same time made in the adjustment register under that head and the head of expenditure to which it was originally charged.

201. If, in any case, a cheque is cancelled after the accounts of the year have been compiled and published, the cheque shall be removed from the list of outstanding cheques, and the amount shall only be entered in the cash-book as miscellaneous receipt and an adjustment made in the accounts in accordance with the instructions contained in rules 207 (d) and 209.

Abstract Register of Receipts and Expenditure.

202. All the entries on the receipt side of the cash-book, Form No. 43, shall be posted item by item direct from the cash-book into the abstract register of receipts, Form No. 49, and all the entries on the payment side of the cash-book shall be similarly posted into the abstract register of expenditure, Form No. 50.

203. The abstract registers shall be posted as frequently as may be convenient, but in no case later than ten days after the close of the month to which the accounts relate.

204. The columns of the abstract registers shall be totalled every month and the totals of the cash transaction must necessarily be equal to and shall be compared by the Chairman with the totals of receipts and payments in the cash-book. He shall initial the abstract registers in token of having made this comparison.

Adjustments.

205. For the record of transactions other than cash a register of adjustments shall be opened in Form No. 51.

206. (1) The chief adjustments to be dealt with in the said register are:—

- (1) Rectifications of error in classification.
- (2) The adjustment of a bill against an advance.
- (3) The charge to a head of expenditure by credit to deposits of a sum due on a contractor's bill which sum is retained as security deposit.

NOTE.—The 10 per cent. deductions from contract certificates or other provisional disallowances pending inspection or approval of the work shall not be adjusted under this rule. In such cases only the net amount paid shall be entered in the accounts.

(4) Adjustments due to refund of income or recoveries of expenditure.

(2) These transactions shall be entered item by item in the register of adjustments (Form No. 51), the totals being passed from this register into the abstract registers of receipts and expenditure, but before the postings are made in the abstract registers the net total of the receipt heads shall be agreed with the net total of the payment heads.

207. The methods of entry in the register of adjustments shall be as follows:—

(a) In case (1) the adjustment shall be made by entering the amount in the space for "add entries" in the column for the head to which the amount is to be added, and again in red ink in the space for "deduct entries" in the column for the head from which the amount is to be deducted. Both entries will be made on the receipt side, if the amount is to be transferred from one head of receipt to another; and both will be made on the expenditure side if the amount is to be transferred from one head of expenditure to another.

(b) In case (2) the adjustment shall be made by entering the amount in the space for "add entries" in the column of the expenditure side for the head to which charges on account of the particular expenditure incurred are to be taken and on the receipt side in the space for "add entries" under the head "advances recovered." A corresponding entry must be made on the receipt or credit side of the advance ledger (Form No. 36) of the person by whom the expenditure was incurred and to whom the amount adjusted was originally advanced.

(c) In case (3) the adjustment shall be made by entering the amount on the expenditure side in the space for "add entries" in the column for the head to which the balance of the charges of the bill from which the deduction has been made has been taken, and on the receipt side in the space for "add entries" under "deposits received."

Establishment Check Register.

222. The whole establishment of the District Board shall be recorded in the establishment check register (Form No. 56) in which every appointment as made shall be entered. The entries in columns 1 to 6 of the register shall be made from the sanctions for each appointment, and shall be grouped according to the different branches of the establishment, a total being made for each. When any revision of the establishment is made the details of the revision shall be noted in the register, the number and date of the Resolution or order being quoted in column 1 thereof. Every entry in this register shall be initialed by the Chairman, Vice-Chairman or Secretary.

223. Details of every establishment bill after it is checked by the accountant shall be posted into the establishment check register (Form No. 56). Pay shall be recorded under the month for which it is due, not under that in which it is disbursed.

Temporary Establishment.

224. Temporary establishment shall be entered in the establishment check register (Form No. 56) at the end of the space allotted for the permanent establishment and shall not be mixed up with it. The period for which the temporary establishment is sanctioned shall be distinctly specified in the second column below the details of appointments sanctioned and lines shall be drawn across the columns of the months previous and subsequent to such period, so as to prevent admission by oversight of pay for a period in excess of sanction.

Fixed Recurring Charges.

225. Other fixed recurring charges, such as scholarships, grants-in-aid rents, chankidari and municipal taxes payable by the District Board and periodical contributions to Government for pay and allowances of Sub-Assistant Surgeons and Veterinary Assistants, etc., shall be recorded and checked in the same manner as establishment charges. The establishment check register (Form No. 56) shall be used for this purpose, separate pages being opened therein for these charges.

Register of Lands.

226. A proper record of all lands, including roads, lands on road sides, sites of buildings, tanks, etc., in the possession of the District Boards shall be kept in Form No. 57.

227. If any plot of land shown in the register is sold or otherwise transferred from the possession of the Board, the entry for it should be struck off, and the facts in connection with the transfer stated in the column for remarks under the initials of the Chairman or the Vice-Chairman.

228. The Chairman shall periodically, but not less than once a year, re-examine the register of immovable property and satisfy himself that the record is correct and complete. He shall take such steps as he may consider necessary to have the boundaries of immovable property verified.

Register of Properties.

229. Registers and stock books (Form 60) of movable and immovable property which belongs to the Board shall be maintained as shown in the table below. Where no officer is specifically mentioned in column 2 the Chairman shall decide what official shall be the officer in charge. A separate list shall be prepared and hung up in each building owned by the Board showing the furniture, etc., contained in it. No separate list is required for

such things as forms, medicines and stores which are in process of consumption and are shown in a stock book where balances are struck :—

Annual Verification of Properties.

230. All movable property of the Board at head-quarters shall be verified annually by such members of the Board as are appointed by the Board for this purpose. Movable property in buildings away from head-quarters shall be verified at least once in two years in the same manner, provided that furniture and apparatus in vernacular schools shall be verified annually by the Deputy and Sub-Inspectors of Schools. In the case of dispensaries the verification by members shall extend to furniture only. Stock books of medicines and instruments shall be examined by Civil Surgeons.

231. The verifying officer shall personally satisfy himself that the balances are correct and shall sign and date the register or stock book and the list (if any) and shall report the result to the Secretary.

232. When for any reason it is not possible to verify the whole balance of one form of property in one day, the verifying officer shall verify a portion each day, and take precaution that each portion verified is secured from interference until he has verified the whole.

Indent Book of Stores.

233. All orders for supplies required for the Board itself or for the educational and other institutions under it, shall be issued in Form No. 58, duly signed by the Chairman. The Chairman shall see that the persons or firms concerned furnish bills for payment immediately after the completion of the supplies, supported by the order. The date of completion of the supply, the date of receipt of the bill, and the date of payment shall be promptly noted on the office copy of the indent by the accountant, as each stage occurs.

Destruction of Records.

234. At the close of every year the Chairman of the District Board shall consider what records of the District Board's office may properly be destroyed. In giving sanction to the destruction of such records, he shall be guided by the general rules issued by Government from time to time in this behalf. At the same time, he shall submit to the Inspector of Local Works a list of those records of the District Engineer's Office which may properly be destroyed. In giving sanction to the destruction of such records, the Inspector of Local Works shall be guided by the provisions of the Public Works Code.

(d) In case (4) an adjustment shall ordinarily be made by deduction from similar receipts or payments of the current year, but a refund of expenditure exceeding Rs. 500 shall be finally credited as a receipt under the corresponding revenue head.

208. When income is refunded, the refund shall be charged in the cash-book to the major head of expenditure corresponding to the major head of receipt to which it was originally credited, or if there is no such head, to "32—Miscellaneous." The amount shall then be deducted in the adjustment register from both the head of receipt to which it was originally credited and the head of expenditure to which the refund is charged.

209. When the expenditure is recovered, the amount shall be credited in the cash-book to the major head of receipt corresponding to the major head to which the expenditure was originally charged, or if there is no such head, to "XXV—Miscellaneous." The amount shall then be deducted in the adjustment register from both the head of expenditure to which it was originally charged, and the head of receipt to which the recovery is credited.

Note—Adjustments affecting the Advance and Deposit heads shall be made even after the close of the year.

210. Adjustments made by deduction in the abstract registers shall always be written in red ink.

Vice-Chairman's Orders for Adjustment.

211. Specific orders of the Chairman or Vice-Chairman for adjustments shall be taken in cases (1) and (2) in rule 206 on the bill or voucher, and in cases (3) and (4) in that rule on separate memoranda which shall be filed.

Adjustment of Educational Charges.

212. The procedure indicated in rules 213 and 214 is to be adopted in cases where it is found inconvenient to require that the fees and fines realized in schools shall be remitted to the treasury, and where consequently they are allowed to be retained in part payment of the expenses of the school. As this practice necessitates the opening of a special register, and entails an appreciable increase of work in the Account branch of the office of the District Board, it shall not be adopted unless the remittance of school fees to the treasury is really a matter of considerable difficulty.

213. Each bill as it is received shall be entered in a register in Form No. 52.

214. The gross amount of each bill shall equal the total of the two columns "net amount paid by cheque" and "adjustment—receipt side—Fees from schools and contributions;" and the amount of the adjustment on the receipt side shall be equal to that on the payment side under the head "Secondary schools," "Primary schools" or "Other schools." The adjustments in the accounts shall be made monthly through the adjustment register from the total figure arrived at in this register.

(See rules 60 and 61.)

Incorporation of the Local Board transactions in the District Board Accounts.

215. The transactions of the Local Board, as exhibited in the authenticated copy of their cash-book, shall be scrutinised and passed by the Chairman of the District Board, and shall be at once incorporated in the cash-book and other accounts of the District Board.

216. Separate serial numbers for the year with some distinguishing mark for each Local Board shall be assigned to the vouchers of Local Boards. e.g., Sadar Local Board's vouchers may run from A1 to A100 for the year, and that of other Local Boards from B1, C1, etc. These vouchers shall be filed separately from the District Board's vouchers.

(See rule 100.)

Incorporation of the Union Committee transactions in the District Board Office.

217. Contributions from the District Fund shall be debited in the District Board's accounts to the head of "Advances—Advances to Union Committees," and when they appear as receipts in the account submitted by the Union Committee, the same head shall be credited. All other receipts and charges shall be recorded under the appropriate revenue and service heads of accounts. The transactions of the Union Committees exhibited in the quarterly account shall be incorporated in the cash-book of the District Board after the transactions of the Local Boards. The total payments only under each head of account shall be recorded, and not the details shown in the vouchers.

Monthly, quarterly and annual accounts.

218. Registers of monthly and quarterly receipts and expenditure shall be kept in forms Nos. 53 and 54, and shall be compiled from the abstract registers. The progress of expenditure as compared with allotment shall be shown in such detail as may be necessary, the particulars being obtained from the cash book.

219. In the first month of every quarter a copy of the "monthly and quarterly accounts" showing only the budget estimate and quarterly figures for the previous quarter's receipts and expenditure shall be published by lodging a copy signed by the members of the Finance Committee and countersigned by both Chairman and Vice-Chairman in the office of the Magistrate and Collector of the district.

220. (1) An annual account in Form No. 55 showing the consolidated receipts and expenditure for the year shall be published in the same manner as the quarterly accounts not later than the second month of the next year. It shall be accompanied by a schedule setting forth the sums expended on each work under—

45. Civil Works—

Original works—

1. Civil Buildings.
2. Communications.
3. Miscellaneous Public Improvements.

Water-supply and Water-works—

1. New tanks and wells.

Drainage works.

These details may be obtained from the register of work bills.

(2) A copy of the annual account shall at the same time be despatched to the Accountant-General.

Office Order Book.

221. An office order book shall be kept by the District Board in which all appointments, promotions, leave, suspensions, fines, office arrangements and orders generally shall be noted. The Vice-Chairman shall see that this order book is kept in a correct and complete manner.

MUNICIPAL AND LOCAL.

NOTIFICATIONS.

No. 555M.—The 22nd February 1918.—In exercise of the power conferred by section 290 of the Bengal Municipal Act, 1884

Burdwan.

(Ben. Act III of 1884), the Governor in Council makes, in supersession of the rules published with Notification No. 196M., dated the 11th January 1898, the following rules subject to which the Commissioners of the Burdwan Municipality may allow communication pipes to be laid down from the service-pipes of the Commissioners for the purpose of leading water to premises within the Municipality for domestic purposes only:—

Rules.

So long as the Commissioners deem it practicable and consistent with the maintenance of an efficient water-supply, they may allow any owner or occupier of a holding paying a water-rate imposed under the provisions of Part VII of the Bengal Municipal Act, 1884, on the annual value of such holding, when such annual value is not less than Rs. 100, to lay down communication-pipes from the service pipes of the Commissioners for the purpose of leading water to such holding for domestic purposes only, subject to the following rules and conditions:—

1. The owner or occupier of any holding requiring water to be laid on to such holding for domestic purposes, or requiring any addition or alteration to an existing water-supply, must apply for the same on a printed form to be supplied, free of cost, at the Municipal Office.

2. A fee of Rs. 125 must be paid to the Commissioners by such owner or occupier for each connection to a municipal main supply-pipe before any work is commenced, such fee to be in addition to all other costs and charges imposed under these rules.

3. Each holding must have a separate connection to the municipal main supply-pipe, and extension from the communication-pipe of one holding to another holding shall not be permitted:

Provided that no holding shall have more than one separate connection, but if in any case the Commissioners at a meeting are satisfied that an adequate supply to any holding cannot be given through a single connection, they may sanction a second connection thereto.

4. The owner or occupier of the holding in respect of which the connection is required must pay the entire cost of the connection, including the

supply and fixing of the fittings referred to in rule 7, and must also pay the cost of such alterations in, or repairs to, roads, drains, sewers, gas or water-mains or pipes, and the cost of such other works as may be necessitated by, or result from, the work of making such connection.

5. The owner or occupier of the holding to which a connection has been given must, at any time, on receipt of notice to do so from the Commissioners, pay the entire cost of any repairs or alterations to the connection or any part thereof that the Commissioners may consider necessary to put it into a satisfactory condition, or which may be necessitated by any change in the Municipal water-works or system of distribution, or by the defective condition of the connection or any part thereof, or by any other cause whatever.

6. (1) The works required under rules 4 and 5 may, at the option of the Commissioners, either be carried out by the Commissioners themselves at the expense of the owner or occupier of the holding in respect of which the works are required, or may be carried out by a person or firm employed by such owner or occupier and approved by the Commissioners.

(2) No work shall be carried out under sub-rule (1), except under the supervision of a Municipal Officer.

7. A holding connection shall comprise the following parts or fittings:—

- (a) a brass or gun-metal ferrule inserted in the main supply-pipe;
- (b) a galvanised iron communication-pipe from the ferrule to the meter;
- (c) a stop-cock and its surface-box;
- (d) a meter;
- (e) service-pipes from the stop-cock to the taps; and
- (f) taps.

8. (1) All the fittings referred to in rule 7 shall be exact duplicates of standard samples kept in the office of the Commissioners, and approved by them in meeting.

(2) All fittings shall be inspected and tested and stamped by an officer of the Municipality before being fixed.

(3) If any owner or occupier shall desire to adopt any fitting of a pattern different from the standard patterns, he must present such fitting for the approval of the Chairman, and any fitting so presented may, if considered satisfactory by the Chairman, be stamped, and samples thereof may be purchased and placed among the standard fittings.

9. The holding connection, when fitted in position, must be capable of standing a pressure of 100 feet, and no water shall be supplied until it has stood such a test applied by the Commissioners.

10. The size of the ferrule and the diameter of the communication-pipe referred to in clauses (a) and (b) of rule 7, and the number of taps shall be fixed in accordance with the annual valuation of the holdings as follows:—

Annual valuation of holding not exceeding— Rs.	Number of taps.	Size of ferrule. Inch.	Diameter of communication-pipe. Inch.	Size of tap-cock. Inch.
150	2	$\frac{1}{2}$	$\frac{1}{2}$	$\frac{1}{2}$
450	2	$\frac{1}{2}$	$\frac{3}{4}$	$\frac{3}{4}$
1,500	3	$\frac{1}{2}$	$\frac{3}{4}$	$\frac{1}{2}$
3,000	3	$\frac{3}{4}$	$\frac{3}{4}$	$\frac{1}{2}$
6,000	4	$\frac{3}{4}$	1	$\frac{1}{2}$
Above 6,000	4	$\frac{1}{2}$	1	$\frac{1}{2}$

11. (1) On every communication-pipe a brass or gun-metal stop-cock having the same waterway as such pipe shall be placed as near as practicable to the point where that pipe enters the holding to be supplied.

(2) The stop-cock shall be built in a brick chamber provided with a cast-iron surface cover-box so designed that it can be locked, and the key of this box shall remain under the control of the Chairman.

(3) The stop-cock shall be capable of adjustment so that the supply to the holding may be regulated thereby.

12. (1) The meter shall be placed as near to the stop-cock as possible and in a position where it can be conveniently examined.

(2) The meter must be fixed in a brick chamber covered over with a cast-iron surface-box of approved pattern.

13. Neither the stop-cock nor the meter must be placed in any private premises.

14. The Commissioners shall depute an authorised person to read every meter not less than once a quarter, and shall give notice to the occupier at least twenty-four hours before the reading is recorded. If he fails to attend, the inspection shall be made in his absence.

15. (1) Every owner or occupier of any holding in respect of which a connection has been made under these rules shall be entitled to a supply of—

- (a) 3,000 gallons of water per quarter for each rupee, and
- (b) a further proportionate number of gallons per quarter for every additional fraction of rupee,

paid by him quarterly as water-rate in respect of such holding.

(2) For all water in excess of the amount allowed under sub-rule (1), such owner or occupier shall be charged quarterly six annas for each 1,000 gallons or any fraction of it.

16. The Commissioners may cut off the connection between any water-works of the municipality and any holding to which water is supplied from such works, or may turn off such supply, in any of the following cases, namely:—

- (a) if the holding is unoccupied;
- (b) if the occupier refuses to admit any officer duly empowered in that behalf into the holding for the purpose of making any examination or inspection authorised under the provisions of Part VII of the Bengal Municipal Act, or under any by-law or rule framed under this Act, or prevents such officer from making such examination or inspection;
- (c) if the owner or occupier of the holding touches or interferes with his meter in any way, or wilfully or negligently injures or damages it;
- (d) if the owner or occupier of the holding wilfully or negligently permits waste of water in such volume as will, in the opinion of the Chairman, endanger the water-supply in the neighbourhood;
- (e) if the owner or occupier of the holding shall refuse or neglect to pay any of the fees or charges imposed in accordance with these rules for a space of fourteen days after he has been served with a notice of demand for the same;
- (f) if the owner or occupier of the holding constructs or fixes any cisterns, tanks, reservoirs, taps, pipes, pumps or any other works in connection with the water-supply not authorised by these rules;
- (g) if the pipes, taps, ball-cocks, cisterns, or any other parts of the connection are, in the opinion of the Commissioners, in a leaking condition or a state of disrepair, after notice to repair such defect has been served;

Provided that such disconnection or turning off of water-supply shall not relieve any person from any liabilities which he may have incurred under these rules.

In the circumstances contemplated in clause (d) an officer authorised by the Commissioners in this behalf by a general order shall have the power to turn off the supply for a period not exceeding eight hours on his previously recording his reason in writing.

17. No tap shall be of larger size than the pipe to which it is attached and shall be of brass and of the pattern known as "Screw-down." Every tap shall be at least 3 feet above the surface of the ground beneath.

18. No cistern, tank or reservoir of any description which is intended to be supplied with water from the Municipal water-works shall be permitted to any holding except with the sanction of the Commissioners in meeting, and such sanction shall distinctly specify the dimensions and capacity of the cistern, tank or reservoir allowed. The inlet to every such cistern, tank and reservoir must be controlled by an efficient ball-cock so that the discharge thereinto is completely stopped when the cistern, tank or reservoir is full. Any taps fed from such cistern, tank or reservoir must be included in the number of taps allowed under rule 10.

19. No connection shall be permitted to any holding unless and until the owner and occupier makes effective provision to the satisfaction of the Commissioners for draining all waste water away.

Provided also that no holding shall have more than one separate connection, but if in any case the Commissioners are satisfied that an adequate supply to any holding cannot be given through a single connection, they may sanction a second connection thereto.

6. (1) The works required under rules 4 and 5 may, at the option of the Commissioners, either be carried out by the Commissioners themselves at the expense of the owner or occupier of the holding in respect of which the works are required, or may be carried out by a person or firm employed by such owner or occupier and approved by the Commissioners.

9. The holding connection, when fitted in position, must be capable of standing a pressure of 100 feet, and no water shall be supplied until it has stood such a test applied by the Commissioners.

(a) Candidates will be expected to be familiar with all the propositions in the above books, and will also be expected to solve simple riders.

(b) Two or three simple subjects will, as a rule, be given from which a candidate may choose one only. He should endeavour to excel in good sense, not in quantity. The standard is roughly equivalent to Matriculation or School Final.

1. The examination is held annually at the Civil Engineering College, Sibpur, on the first Monday in June. The examination will be conducted, either at the College, or by an Accountant-General (including the Government Engineer of Railway Accounts), in Bengal, Bihar and Orissa, Assam and Burma only. The examination will be *ipso facto* vitiated, if it be not held (begun and completed) on the dates fixed; but the officer who will conduct the examination may make his own arrangements with the candidates in regard to the place and hour of examination.

Candidates will not be examined in any of the Calcutta offices.

A candidate already in permanent Government employ* may be allowed

* This term includes employment under Local Boards and foreign bodies, if such is pensionable by the British Government.

to compete in the examination, even if he is more than 25 years of age, and may be appointed to an accountantship, if he passes it; but if he is not already in pensionable service, he will be eligible

only for appointment to the non-pensionable establishment on State Railways.

2. The candidate should apply to an Accountant-General not later than 30 days previous to the date fixed for the examination and obtain his consent to conduct the examination, if examination at the College is not convenient. The application must bear the address of the candidate, must be accompanied by a fee of Rs. 10 and the following certificates and registration form duly filled in, and must be forwarded by him not direct to the Principal, but through the Accountant-General.

Certificates may be submitted in original, or true copies attested by an officer of the Engineer or Accounts Branch, but they will not be returned—

(1) A certificate of good character signed by applicant's immediate official superior, or by the instructor under whom he has been educated, or by some other superior under whom he may have been brought up or employed or to whom he may be well known. (This certificate must have special reference to the two years immediately preceding the application.)

(2) A certificate of age, baptismal or of birth (not required, if the candidate is already in permanent Government employ).

(3) A certificate that the application is in the candidate's hand-writing.

NOTE A.—A candidate already in Government service should, in like manner, submit his application through his immediate official superior to an Accountant-General (including Government Examiner of Railway Accounts) qualified to hold the particular examination and should state whether he desires to be examined at the office of the Accountant-General concerned or at the College.

NOTE B.—The usual examination centres are (1) the Civil Engineering College, Sibpur, (2) Chittagong, (3) Ranchi, (4) the Bihar School of Engineering, Patna, (5) Rangoon, (6) Shillong, and (7) Simla for candidates in the Government of India offices: no others will be admitted at Simla.

(4) Registration statement containing the following information :—

- (a) Name in full.
- (b) Father's name.
- (c) Nationality or class, i.e., European, Anglo-Indian or Indian, of candidate; and, if Indian, caste or tribe.
- (d) Date of birth.
- (e) Place of birth.
- (f) Present address.
- (g) Examinations passed.
- (h) Thumb mark of candidate, left hand, to be made in the presence of a responsible person who knows candidate.
- (k) Signature and address of above-mentioned witness.

It will rest with the Accountant-General (including Government Examiner of Railway Accounts) to whom the candidate submits his application, to decide on a consideration of the certificates submitted, whether the candidate should be allowed to appear for the examination, or whether his application should be rejected. The Accountant-General, or the other officers referred to, will then forward to the Principal, for registration, the names of the accepted candidates, together with their registration statements, which should be signed by the Accountant-General. The registration statement should be carefully preserved by the Principal. The names of these candidates should be entered in a statement showing their ages and their addresses, and also showing where each candidate is to be examined, whether at the College or at the office of the Accountant-General. This statement, together with the fees, should be transmitted to the Principal not later than 15 days after the dates fixed in paragraph 2 for the submission of applications of candidates.

3. Examination papers that are issued for examination need not be returned.

4. Each examination is complete in itself. A candidate who has failed in an examination, and presents himself for examination on a subsequent occasion, must undergo the full examination and furnish fresh a fee and certificates.

5. If from any cause a candidate fails to appear for the examination, the fees paid will not be refunded.

6. It must be distinctly understood that the passing of this examination does not give any claim to an appointment, and that, in making appointments, preference will be given to qualified persons who are already employed in the department.

7. Passed candidates should apply, not to the Principal of the College nor to the Comptroller-General, but direct to the Accountant-General or Government Examiner of Railway Accounts in the province or railway under whom they may desire to be employed.

8. The Civil Engineering College acts solely as an examining body in reference to admission to the 4th grade of Accountants, Public Works Department.

9. Candidates for the 4th grade Accountantship Examination, who are not Government servants and over 25 years of age, are allowed to appear at the examination of the Sibpur College centre only, but even if successful, they are debarred from employment in the service of Government, and their names will be excluded from the list of passed candidates which is furnished to the Comptroller and Auditor-General.

10. Candidates over 25 years of age not in Government employ should apply in writing to the Principal of the Civil Engineering College not later than 30 days previous to the examination; the application to be accompanied by a Treasury receipt for Rs. 10, and the registration statement prescribed in rule 2 (4).

B. HEATON,

Principal, Civil Engineering College, Sibpur.

NOTE (1).—The question papers of previous years are not published separately. Those of the preceding year are printed in the Civil Engineering College Calendar—price, annas 12 and annas 3 postage, which must be prepaid.

NOTE (2).—Candidates for the examination are not provided with accommodation in the College barracks, but arrangements for their meals can be made on payment in advance of annas 4 per meal to the Assistant Superintendent of the Mess.

NOTE (3).—As for qualifications for admission to the examinations, candidates should refer the matter to the Accountant-General of their province.

NOTE (4).—There are no classes at the Sibpur College for teaching Book-keeping.

Of the total number to be admitted, twelve candidates will be nominated by the Inspector-General of Civil Hospitals of Bihar and Orissa and six candidates by the Inspector-General of Civil Hospitals of Assam. These candidates must possess the qualifications mentioned in rule 2 (i). In addition, the Bihar and Orissa Government will nominate six scholars, who, after 1918, must possess the I. These nominations must reach the Principal, Medical College, Calcutta, before the 10th June in each year, failing which the Principal will fill up vacancies with local candidates.

17. The fees payable by a Muhammadan student requiring certificates in the same way will be calculated on the same principle, i.e., he will be allowed a deduction for the full annual fee, half of which has been paid by himself and half by the Mohsin Fund.

18. Students of the Military class requiring certificates in the same way will be required to pay the rate of fees laid down in paragraph 12 for the full curriculum or for such portion as they have attended. No deduction will be made in this case as they are not free students in the sense in which that term is defined in Bengal Government Resolution (Education) No. 601 of the 7th December 1880.

THE Bethune College is affiliated to the B.A. pass standard in English, Philosophy, Sanskrit, History and Political Economy, and to the honours standard in English and Sanskrit. It is also affiliated to the I. A. standard in English, Sanskrit, Logic, Botany, History, Bengali and Mathematics. The monthly fee is Rs. 3, the admission fee also is Rs. 3. A bus fee of Rs. 2 is levied on the students using the college buses. It is an annual fee like the tuition fee and is divided for convenience into twelve monthly payments, and must be paid until the end of the session by all students using the buses during the academic year. The college authorities have to approve of the method by which students come to and go home from College. It is, therefore, incumbent on every day student not using the college bus to submit to the Principal a statement as to the arrangement she wishes to make, and obtain sanction for the scheme proposed. There is a hostel attached to the institution. The boarders are charged Rs. 11 per mensem for board and attendance and Rs. 3 for every hundred clothes for laundry expenses. The admission fee for the hostel is Rs. 11. Accommodation in the hostel is very limited. All applications for admission to the College as well as to the hostel must be made in writing to the Principal. The new term commences after the long vacation on 12th July 1918.

Seats in the College being limited, applications should be made for registration as soon as the results of the University Examinations are published in the Gazette. Actual admissions will be made on the re-opening of the College when fees will be received.

NOTICE.

THE Bethune College is affiliated to the B.A. pass standard in English, Philosophy, Sanskrit, History and Political Economy, and to the honours standard in English and Sanskrit. It is also affiliated to the I. A. standard in English, Sanskrit, Logic, Botany, History, Bengali and Mathematics. The monthly fee is Rs. 3, the admission fee also is Rs. 3. A bus fee of Rs. 2 is levied on the students using the college buses. It is an annual fee like the tuition fee and is divided for convenience into twelve monthly payments, and must be paid until the end of the session by all students using the buses during the academic year. The college authorities have to approve of the method by which students come to and go home from College. It is, therefore, incumbent on every day student not using the college bus to submit to the Principal a statement as to the arrangement she wishes to make, and obtain sanction for the scheme proposed. There is a hostel attached to the institution. The boarders are charged Rs. 11 per mensem for board and attendance and Rs. 3 for every hundred clothes for laundry expenses. The admission fee for the hostel is Rs. 11. Accommodation in the hostel is very limited. All applications for admission to the College as well as to the hostel must be made in writing to the Principal. The new term commences after the long vacation on 12th July 1918.

Seats in the College being limited, applications should be made for registration as soon as the results of the University Examinations are published in the Gazette. Actual admissions will be made on the re-opening of the College when fees will be received.

OFFICE OF THE BOARD OF EXAMINERS, 1, COUNCIL HOUSE STREET, CALCUTTA, the 31st October 1918.

NOTICE.

THE Bethune College is affiliated to the B.A. pass standard in English, Philosophy, Sanskrit, History and Political Economy, and to the honours standard in English and Sanskrit. It is also affiliated to the I. A. standard in English, Sanskrit, Logic, Botany, History, Bengali and Mathematics. The monthly fee is Rs. 3, the admission fee also is Rs. 3. A bus fee of Rs. 2 is levied on the students using the college buses. It is an annual fee like the tuition fee and is divided for convenience into twelve monthly payments, and must be paid until the end of the session by all students using the buses during the academic year. The college authorities have to approve of the method by which students come to and go home from College. It is, therefore, incumbent on every day student not using the college bus to submit to the Principal a statement as to the arrangement she wishes to make, and obtain sanction for the scheme proposed. There is a hostel attached to the institution. The boarders are charged Rs. 11 per mensem for board and attendance and Rs. 3 for every hundred clothes for laundry expenses. The admission fee for the hostel is Rs. 11. Accommodation in the hostel is very limited. All applications for admission to the College as well as to the hostel must be made in writing to the Principal. The new term commences after the long vacation on 12th July 1918.

Seats in the College being limited, applications should be made for registration as soon as the results of the University Examinations are published in the Gazette. Actual admissions will be made on the re-opening of the College when fees will be received.
